Sonnets William Shakespeare,SparkNotes,2018-05-30 This No Fear Shakespeare ebook gives you the complete text of the Sonnets and an easy to understand translation Each No Fear Shakespeare contains The complete text of the original play A line by line translation that puts Shakespeare into everyday language A complete list of characters with descriptions Plenty of helpful commentary *Shakespeare and the Authorship of the Sonnets* Dennis Hirsch,2024-02-19 The persona of Edward de Vere represents a contrast to the canonical Stratfordian image of Shakespeare His adulterous affair with a teenage girl half his age his complicity in acts of treason against Queen Elizabeth and the bankruptcy of his earldom due to his lavish spending all combine to paint a picture of a man contrary to the Stratfordian ideal However it is this unattractive portrayal of him that supports the argument that de Vere wrote the sonnets since the sonnets themselves offer up underlying messages of ridicule deception avarice and sexual obsession that doggedly champion the author s own best interests above others This work presents an Oxfordian reading of the sonnets and the problematic life of Edward de Vere the 17th Earl of Oxford

Shakespeare's Sonnets, Retold William Shakespeare,James Anthony,2018-11-13 An enlightening and entertaining collection of the most esteemed love poems in the English canon retold in contemporary language everyone can understand James Anthony has long enjoyed poetry with a strict adherence to beat rhythm and rhyming patterns which he likens to the very best pop songs This drew him to the rewarding 14 line structure of Shakespeare s sonnets yet he often found their abstract language frustratingly unintelligible One day out of curiosity he rewrote Sonnet 18 Shall I compare thee to a summer s day line by line in the strict five beat iambic pentameter and rhyming patterns of the original but in a contemporary language a modern reader could easily understand The meaning and sentiment difficult to spot initially came to life revealing new intricacies in the workings of Shakespeare s heart And so James embarked on a full time year long project to rewrite all 154 of the Bard s eternal verses creating SHAKESPEARE S SONNETS RETOLD This collection of masterful reinterpretations brilliantly demystifies and breathes new life into Shakespeare s work demonstrating the continued resonance of a playwright whose popularity remains over 400 years after his death Now the passion heartbreak deception reconciliation and mortality of Shakespeare s originals can be understood by all without the need to cross reference to an enjoyment sapping study guide Coming with a foreword by Stephen Fry this is a stunning collection of beautiful love poems made new SparkNotes Ultimate Style Diane Mehta,2006 Muses inspiration and other mysterious

Origins Clive Bloom, 2022-01-01 This handbook provides a comprehensive overview of research on the Gothic Revival The Gothic Revival was based on emotion rather than reason and when Horace Walpole created Strawberry Hill House a gleaming white castle on the banks of the Thames he had to create new words to describe the experience of gothic lifestyle Nevertheless Walpole's house produced nightmares and his book *The Castle of Otranto* was the first truly gothic novel with supernatural sensational and Shakespearean elements challenging the emergent fiction of social relationships The novel's themes of violence tragedy death imprisonment castle battlements dungeons fair maidens secrets ghosts and prophecies led to a new genre encompassing prose theatre poetry and painting whilst opening up a whole world of imagination for entrepreneurial female writers such as Mary Shelley Joanna Baillie and Ann Radcliffe whose immensely popular books led to the intense inner landscapes of the Brontë sisters Matthew Lewis's *The Monk* created a new gothic atheistic decadent perverse necrophilic and hellish The social upheaval of the French Revolution and the emergence of the Romantic movement with its more intense and often atheistic self absorption led the gothic into darker corners of human experience with a greater emphasis on the inner life hallucination delusion drug addiction mental instability perversion and death and the emerging science of psychology The intensity of the German experience led to an emphasis on doubles and schizophrenic behaviour ghosts spirits mesmerism the occult and hell This volume charts the origins of this major shift in social perceptions and completes a trilogy of Palgrave Handbooks on the Gothic combined they provide an exhaustive survey of current

research in Gothic studies a go to for students and researchers alike
