Connolly,2024-09-03 Composed as a counter history of western philosophical and political thought Stormy Weather explores the role western cosmologies have played in the conquests of paganism in Europe and the Americas the production of climate wreckage and the concealment of that wreckage from western humanists and earth scientists until late in the day A lived cosmology Connolly says contains embedded understandings about the beginnings of the earth and the way time unfolds The text engages the major western cosmologies of Augustine Descartes Kant Tocqueville together with pagan and minor western orientations that posed challenges to them or could have Hesiod Ovid William Apess Amazonian and Aztec cosmologies Catherine Keller s minor Christianity James Baldwin and Michel Serres instigate key responses often challenging binary logics and the subject object dichotomy with a world of multiple human and nonhuman subjectivities

Connolly pursues a conception of time as a multiplicity of intersecting temporalities to come to terms with the vicissitudes of climate destruction and the grandeur of an earth neither highly susceptible to mastery nor designed to harmonize smoothly with humans. The book revisits the improbable necessity of a politics of swarming to respond to the ongoing wreckage and potential fascist responses to vast infusions of climate refugees from the south into temperate zone capitalist states. *Stormy Weather* draws on the work of earth scientists, indigenous thinkers, naturalists, humanists, and students of nonwestern cosmologies. Ultimately, Connolly contends that critical intellectuals today must not remain enclosed in disciplinary silos or even in the humanities as currently defined to do justice to our moment of climate wreckage.

[A Dictionary of Classical Greek Quotations](#) Marinos Yeroulanos, 2016-06-30. Only god is truly wise; human wisdom is of little or no value, declaimed Plato in his *Apology*. And yet the ancient Greeks, including Plato himself, more than any other people of antiquity, were fascinated by the pursuit of the wisdom they called *philosophia*. That search for knowledge involved an extensive use of maxims and quotations, as we can see from those expressions of Homer prefaced by the phrase *as people say*. Classical Greek lore and sagacity have throughout history continued to provide inspiration to figures as diverse as the Church Fathers, Shakespeare, Nietzsche, Marx, and John F. Kennedy. Indeed, Homer, the Seven Sages, and the Pre-Socratic philosophers are still extensively quoted in all the major western languages, while the admired sayings of Heraclitus, for instance, are known only through his quotations, his actual writings having long been lost. Yet for all their popularity and ubiquity, until now there has been no single resource for these quotations to which interested readers might turn. This unique and handsome reference book offers one of the most comprehensive selections of Greek quotations ever committed to print. Organised alphabetically with the original Greek followed by an accompanying English translation, it collects some 7500 entries ranging from the archaic period to late antiquity and across philosophy, drama, poetry, history, science, and medicine. Containing a full list of translators and of abbreviations, its index of key words enables the fast and efficient sourcing of each entry. This is a handbook designed for years of pleasurable and profitable browsing. Many readers may find that the views expressed twenty centuries ago and now helpfully contained between one set of covers are as pertinent and provocative today as they were then.

[A New Companion to Greek Tragedy \(Routledge Revivals\)](#) Andrew Brown, 2014-08-07. That the works of the ancient tragedians still have an immediate and profound appeal surely needs no demonstration, yet the modern reader continually stumbles across concepts which are difficult to interpret or relate to: moral pollution, the authority of oracles, classical ideas of geography, as well as the names of unfamiliar legendary and mythological figures. *A New Companion to Greek Tragedy* provides a useful reference tool for the Greekless reader, arranged on a strictly encyclopaedic pattern with headings for all proper names occurring in the twelve most frequently read tragedies; it contains brief but adequately detailed essays on moral, religious, and philosophical terms, as well as mythical genealogies where important. There are, in addition, entries on Greek theatre, technical terms, and on other writers from Aristotle to Freud, whilst the essay by P. E. Easterling traces some

connections between the ideas found in the tragedians and earlier Greek thought      **Discourse in Psychoanalysis and Literature (Routledge Revivals)** Shlomith Rimmon-Kenan, 2014-11-13 The essays in this collection first published in 1987 represent a collective attempt to listen with the third ear to the underhand ways the unspoken has of speaking and to speak of these ways By focusing on discourse the volume is distinguished from traditional literature by its emphasis on rhetorical structures and textual strategies and the investment of these structures with desire power and other aspects of subjectivity rather than the personality of the artist or the creative process However in this book the human dimension is not lost By claiming that the structures in question are not merely linguistic semiotic or narratological although they are all of these the human dimension is returned not in the raw as in traditional approaches but through the traces it leaves in the text as activated by its reading This book is ideal for students of literature and psychoanalytical theory      Encyclopedia of Ancient Greece Nigel Wilson, 2013-10-31 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece      History of Greek Literature Albrecht Dihle, 2013-04-15 The most up to date history of Greek literature from its Homeric origins to the age of Augustus Greek literary production throughout this period of some eight centuries is embedded in its historical and social context and Professor Dihle sees this literature as a historical phenomenon a particular mode of linguistic communication with its specific forms developing both in an organic way and in response to the changing world around In this it differs from conventional humanist approaches to Greek and Latin literature which analyse the works as objects of timeless value independent of any historical setting or purpose This magisterial survey by one of the leading European authorities on classical literature will establish itself as it already has in Germany as the standard account of the subject      **Rethinking Tragedy** Rita Felski, 2008-02-11 This groundbreaking collection provokes a major reassessment of the significance of tragedy and the tragic in late modernity A distinguished group of scholars and theorists extends the discussion of tragedy beyond its usual parameters to include film popular culture and contemporary politics Seven new essays as well as eight essays originally published in a New Literary History special issue on tragedy address important previously neglected areas of tragedy and postcolonial criticism The new material explores the tragic dimensions of popular culture the relationship between tragedy and pity and feminism s avoidance of the tragic and includes an incisive history of tragic theory Classic and cutting edge this collection offers a provocative accessible and comprehensive treatment of tragedy and tragic theory Contributors Elisabeth Bronfen University of Zurich Stanley Corngold Princeton University Simon Critchley University of Essex Joshua Foa Dienstag University of California Los Angeles Wai Chee Dimock Yale
