The Sorcerer's Apprentice Marianna Mayer, David Wiesner, 1989 A sorcerer's young apprentice attempts to practice magic in his master's absence with disastrous results

The Sorcerer's Apprentice Jack Zipes, 2017-03-27 A diverse new anthology that traces the meaning and magic of the sorcerer's apprentice tale throughout history The Sorcerer's Apprentice might conjure up images of Mickey Mouse from the Disney film *Fantasia* or of Harry Potter As this anthology reveals however sorcerer's apprentice tales in which a young person rebels against or complies with an authority who holds the keys to magical powers have been told through the centuries in many languages and cultures from classical times to today This unique and beautifully illustrated book brings together more than fifty sorcerer's apprentice stories by a plethora of writers including Ovid Sir Walter Scott and the Brothers Grimm From Goethe's *The Pupil in Magic* to A K Ramanujan's *The Guru and His Disciple* this expansive collection presents variations of a classic passed down through countries and eras Readers enter worlds where household objects are brought to life and shape shifting occurs from human to animal and back again We meet two types of apprentice The Humiliated Apprentice a foolish bumbler who wields magic ineffectively and promotes obedience to authority and The Rebellious Apprentice who through ambition and transformative skills promotes empowerment and self awareness In an extensive introduction esteemed fairy tale scholar Jack Zipes discusses the significance and meaning of the apprentice stories the contradictions in popular retellings and the importance of magic as a tool of resistance against figures who abuse their authority Twenty specially commissioned black and white illustrations by noted artist Natalie Frank bring the stories to visual life The Sorcerer's Apprentice enlightens and entertains readers with enduring spellbinding tales of sorcery that have been with us through the ages

Landscapes of Dread in Classical Antiquity Debbie Felton, 2018-04-27 Over the last two decades research in cultural geography and landscape studies has influenced many humanities fields including Classics and has increasingly drawn our attention to the importance of spaces and their contexts both geographical and social how spaces are described by language what spaces are used for by individuals and communities and how language use and the passage of time invest spaces with meaning In addition to this spatial turn in scholarship recent years have also seen an emotive turn an increased interest in the study of emotion in literature Many works on landscape in classical antiquity focus on themes such as the sacred and the pastoral and the emotions such spaces evoke such as respectively feelings of awe or tranquillity in settings both urban and rural Far less scholarship has been generated by the locus terribilis the space associated with negative emotions because of the bad things that happen there In short the recent emotive turn in humanities studies has so far largely neglected several of the more negative emotions including anxiety fear terror and dread The papers in this volume focus on those neglected negative emotions especially dread and they do so while treating many types of space including domestic suburban rural and virtual and while covering many genres and authors including the epic poems of Homer Greek tragedy Roman poetry and historiography medical writing paradoxography and the short story
