Morgan,1990-01-01 The Critical Idyll is a socio literary re evaluation of Goethe s idyllic verse epic Hermann und Dorothea The revival of traditional German values as markers of national identity against the approaching revolutionary armies of the French in the early 1790s is analysed in the main figure the archetypal German youth Hermann Confronted by the misery of German refugees from the left bank territories in 1796 Hermann becomes the spokesman for a new sense of German identity The refugee Dorothea and her first finance the German Jacobin who died in Paris provide a perspective on the themes of German identity and individual freedom at this time The national feelings Hermann expresses are based on a language and community in the German small town rather than on earlier territorial or dynastic concepts of the German nation The traditional literary form of the idyll is reformed through irony and parody into a modern critical and self reflexive work in which central themes of post revolutionary society are foregrounded The Very Late Goethe Charlotte Lee,2017-07-05 Goethe s career was an unusually long and productive one he became a literary celebrity in the 1770s and remained so until his death in 1832 The distinguishing feature of his last works is their self consciousness their preoccupation both with the business of writing and with personal development In the first cross genre study of this period of Goethe s work Charlotte Lee traces the theme in his last major poems and autobiographical writings before turning to the two giants Wilhelm Meisters Wanderjahre and Faust II All these works share a tendency to allude subtly to earlier moments from Goethe s own literary output but to fashion them into writing which is quite new even though or perhaps because he himself is old This book seeks to understand the unique perspective of one nearing the end of a long life The Self as Muse Alexander Mathas,2011-04-22 While there are countless philosophical and psychological studies that focus on sources of the self narcissism has found relatively little attention in a pre Freudian context The Self as Muse fills this gap by examining various aspects of narcissism and their significance for the outpouring of creativity in late eighteenth and nineteenth century German literature In many Eighteenth century works of the period narcissism refers to the creation of an idealized image of the self and the desire to merge with this image It provided an impetus for poetic production as writers resorted to the Greek myth of Narcissus to express what they perceived as the inner workings of their soul Yet they were also acutely aware of the vain and therefore narcissistic motivations for their explorations of the self While those influenced by the Pietist tradition attempted to distinguish between an unselfish self scrutiny and self indulging vanity others like Goethe took advantage of narcissism s creative potential and integrated it into their aesthetic endeavors The abundance of confessional and autobiographical accounts the burgeoning of poetry drawing on personal experience the emergence of a type of drama that is based on empathy and the concern with an individual s ability to control one s senses and emotions in general testify to an unprecedented interest in notions of the self in German literature Math s explains the emergence of narcissism in the literature of the period as a sense inspired concept that aims to bring about a better comprehension of both the self and other human beings and how writers used narcissism to improve the moral behavior of their readers It examines eighteenth

century representations of narcissism against the background of Freudian and post Freudian notions of the concept and explores narcissism as a creative process that engages both reader and writer in the production of meaning By showing narcissism s pervasive allure for a broad array of literary productions the vol Classicism and Romanticism in Italian Literature Fabio A Camilletti,2015-10-06 In 1816 a violent literary quarrel engulfed Bourbon Restoration Italy On one side the Romantics wanted an opening up of Italian culture towards Europe and on the other the Classicists favoured an inward looking Italy Giacomo Leopardi wrote a Discourse of an Italian on Romantic Poetry aiming to contribute to the debate from a new perspective **Because I Care** X.
