Soul and body: essays on theories of C. G. Jung. Introduction by Joseph L. Henderson Carl Alfred [C.A.] Meier, 1986

A Life of Jung Ronald Hayman, 2002 Carl Jung was one of the world s most influential psychoanalysts With the exception of Freud who chose him as the first president of the International Psychoanalytic Association no psychologist has achieved more Previous biographers have either made Jung an idol or condemned him for his failings Ronald Hayman neither ignores Jung s faults nor exaggerates them in investigating the most crucial paradoxes surrounding this enigmatic figure Hailed by Anthony Storr as the best biography of Jung Hayman s work is all the more effective for its detached tone that perfectly puts in proportion Jung s cruel brilliant and crazy schemes The Times London Impeccably researched and written with notable objectivity A Life of Jung offers a rare insight into how Jung s revolutionary ideas grew out of his own extraordinary experiences Compelling Hayman captures the extraordinary charisma of his subject Newsday Likely to become the standard biography of the revolutionary psychoanalyst Kirkus Reviews starred review

The Wounded Jung Robert C. Smith, 1996 By exploring Carl Jung s transformative life experience and its effect on his thoughts and writings The Wounded Jung shows how Jung s interest in the healing of the psyche was rooted in the conflicts of his childhood

Jung and the Making of Modern Psychology Sonu Shamdasani, 2003-12-11 Occultist Scientist Prophet Charlatan C G Jung has been called all these things and after decades of myth making is one of the most misunderstood figures in Western intellectual

history This book is the first comprehensive study of the origins of his psychology as well as providing a new account of the rise of modern psychology and psychotherapy Based on a wealth of hitherto unknown archival materials it reconstructs the reception of Jung's work in the human sciences and its impact on the social and intellectual history of the twentieth century The book creates a basis for all future discussion of Jung and opens new vistas on psychology today The Cunning Secret of the Wise Frederick Burniston, 2023-06-25 At first sight my book looks like a collection of essays But there is a drama going on beneath the surface The author is the narrator and the towering figure of C G Jung takes centre stage Throughout the play Jung engages in dialogues and disputes with a number of philosophers theologians and mystics In the final act the last three chapters Jung encounters the great medieval Sufi master Ibn Arabi There are deep affinities between Jung and the Shaykh and these chapters are the merest beginning *Jean D'Espagnet's The Summary of Physics Restored* Jean D'Espagnet, 2019-03-07 Published in 1999 This book is about Alchemy Philosophy and Science during the 17th century written by the author originally published in 1650 **Northrop Frye and the Phenomenology of Myth** Glen Robert Gill, 2006-12-15 In *Northrop Frye and the Phenomenology of Myth* Glen Robert Gill compares Frye's theories about myth to those of three other major twentieth century mythologists C G Jung Joseph Campbell and Mircea Eliade Gill explores the theories of these respective thinkers as they relate to Frye's discussions of the phenomenological nature of myth as well as its religious literary and psychological significance Gill substantiates Frye's work as both more radical and more tenable than that of his three contemporaries Eliade's writings are shown to have a metaphysical basis that abrogates an understanding of myth as truly phenomenological while Jung's theory of the collective unconscious emerges as similarly problematic Likewise Gill argues Campbell's work while incorporating some phenomenological progressions settles on a questionable metaphysical foundation Gill shows how in contrast to these other mythologists Frye's theory of myth first articulated in *Fearful Symmetry* 1947 and culminating in *Words with Power* 1990 is genuinely phenomenological With excursions into fields such as literary theory depth psychology theology and anthropology *Northrop Frye and the Phenomenology of Myth* is essential to the understanding of Frye's important mythological work **Re-Imagining Mary** Mariann Burke, 2009 Artists plumb the depths of soul which Jung calls the collective unconscious the inheritance of our ancestors psychic responses to life's drama In this sense the artist is priest mediating between us and God The artist introduces us to ourselves by inviting us into the world of image We may enter this world to contemplate briefly or at length Some paintings invite us back over and over again and we return never tiring of them It is especially these that lead us to the Great Mystery beyond image *Re-Imagining Mary A Journey through Art to the Feminine Self* is about meeting the Cosmic Mary in image and imagination the many facets of the Mary image that mirror both outer reality and inner feminine soul Jungian analyst Mariann Burke offers personal reflections and suggests symbolic meanings in works by several artists including Fra Angelico Albrecht Durer Henry Ossawa Tanner Nicolas Poussin Parmigianino Duccio di Buoninsegna Salvador Dali Andy Warhol and Frederick Franck *Aspects of Mary*

explored include Mary not only as Mother of God a title from the Judeo Christian tradition but as Mother God a title reaching back to an ancient longing for a Female Divinity In western Christianity this Mary bears the titles and the qualities worshipped for thousands of years in the Female images of God and Goddess These titles include Mary as Sorrowful One and as Primordial Mother Recovering Mary both as light and dark Madonna plays a crucial role in humanity s search for a divinity who reflects soul Also discussed is Mary as the sheltering Great Mother that Piero della Francesca suggest in the Madonna del Parto and Mater Misericordia Frederick Franck s The Original Face and the Medieval Vierge Ouvrante also suggest this motif of Mary as Protector of the mystery of our common Origin Franck s inspiration for his sculpture of Mary was the Buddhist koan What is your original face before you were born What is spirituality What does it mean to grow spiritually and psychologically closer to the Feminine Self How can we begin to see the outer image as a manifestation a projection of the psyche Can we be challenged by being betwixt and between a male dominated Church without a recognized female divinity where God is generally imagined external to the soul and a more feminine depth psychological approach to the Marian mystery and to the Feminine Self Will we answer the call of the mystic within us If so how will we be changed

Jensen,2004-02-01 This groundbreaking collection brings the range and diversity of post Jungian thought into the realm of contemporary literary and cultural criticism These essays explore expand critique and apply post Jungian critical theory as they revisit and reread Jung s own writings from numerous perspectives No longer treated as a source of clear unequivocal authoritative pronouncement Jung s writings are themselves subjected to critical deconstructive readings and several of the essays confront head on Jung s evident racism antifeminism anti Semitism and political conservatism While not downplaying such charges the contributors outline an alternative post Jungian theory responsive to contemporary feminist postcolonial and poststructural concerns The result is not just a critical reinterpretation but more important a regeneration of Jungian thought Subjectivity, the Unconscious and Consumerism Marlon Xavier,2018-09-17 Subjectivity the Unconscious and Consumerism is a unique and imaginative psycho sociological exploration of how postmodern contemporary consumerism invades and colonises human subjectivity Investigating especially consumerism s unconscious aspects such as desires imagination and fantasy it engages with an extensive analysis of dreams The author frames these using a synthesis of Jungian psychology and the social imaginaries of Baudrillard and Bauman in a dialogue with the theories of McDonaldization and Disneyization The aim is to broaden our understanding of consumerism to include the perennial consumption of symbols and signs of identity a process which is the basis for the fabrication of the commodified self The book offers a profound innovative critique of our consumption societies challenging readers to rethink how we live and how our identities are impacted by consumerism As such it will be of interest to students and scholars of critical psychology psychoanalysis sociology anthropology and cultural studies but is also accessible to anyone interested in the complex psychology of contemporary subjectivity *The Seat of*

Consciousness in Ancient Literature Richard E. Lind, 2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today

Mental Health, Spirituality, and Religion in the Middle Ages

and Early Modern Age Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world
