Texts and Textuality Philip G. Cohen, 2018-12-20 These essays deal with the scholarly study of the genesis transmission and editorial reconstitution of texts by exploring the connections between textual instability and textual theory interpretation and pedagogy What makes this collection unique is that each essay brings a different theoretical orientation New Historicism Poststructuralism or Feminism to bear upon a different text such as Whitman's Leaves of Grass Faulkner's The Sound and the Fury or hypertext fiction to explore the dialectical relationship between texts and textuality The essays bring some of the textual theories that compete with each other today into contact with a broad range of primarily literary textual histories That texts are intrinsically unstable frequently consisting of a series of determinate historical versions has consequences for all students of literature because different versions of a literary work frequently help shape different readings independently of the interpretations brought to bear upon them Textual instability of the works is relevant to our understanding of how the meanings of texts are generated The contributors build on the numerous challenges to the Anglo American editorial tradition mounted during the past decade by scholars as diverse as Jerome McGann D F McKenzie Peter Shillingsburg D C Greetham Hershel Parker and Hans Walter Gabler The volume contributes to the paradigm shift in textual scholarship inaugurated by these scholars Index

Putting Modernism Together Daniel Albright,2015-06-10 A powerful introduction to modernism and the creative arts it inspired How do you rationally connect the diverse literature music and painting of an age Throughout the modernist era which began roughly in 1872 with the Franco Prussian War climaxed with the Great War and ended with a third catastrophe the Great Depression there was a special belligerence to this question It was a cultural period that envisioned many different models of itself to the Cubists it looked like a vast jigsaw puzzle to the Expressionists it resembled a convulsive body to the Dadaists it brought to mind a heap of junk following an explosion In Putting Modernism Together Daniel Albright searches for the center of the modernist movement by assessing these various artistic models exploring how they generated a stunning range of creative work that was nonetheless wound together aesthetically and sorting out the cultural assumptions that made each philosophical system attractive Emerging from Albright s lectures for a popular Harvard University course of the same name the book investigates different methodologies for comparing the evolution and congruence of artistic movements by studying simultaneous developments that occurred during particularly key modernist years What does it mean Albright asks that Joseph Conrad s *Heart of Darkness* published in 1899 appeared at the same time as Claude Debussy s *Nocturnes* beyond the fact that the word Impressionist has been used to describe each work Why in 1912 did the composer Arnold Schoenberg and the painter Vassily Kandinsky feel such striking artistic kinship And how can we make sense of a movement fragmented by isms that looked for value in all sorts of under or ill valued places including evil Baudelaire dung heaps Chekhov noise Russolo obscenity Lawrence and triviality Satie Throughout Putting Modernism Together Albright argues that human culture can best be understood as a growth pattern or ramifying of artistic intellectual and political action Going beyond merely explaining how the artists in these genres achieved their peculiar effects he presents challenging new analyses of telling craft details which help students and scholars come to know more fully this bold age of aesthetic extremism

Reading Faulkner: The Sound and the Fury , A handbook for

interpreting Faulkner's great novel **Faulkner and psychology** Donald M. Kartiganer, 1994 Characteristically William Faulkner minimized his familiarity with the theories of psychology that were current during the years of his apprenticeship as a writer especially those of Freud Yet Faulkner's works prove to be a trove for psychological study These original papers from the annual Faulkner and Yoknapatawpha Conference held in 1991 at the University of Mississippi vary widely in their approaches to recent psychological speculation about Faulkner's texts In recent years psychological analysis of literature has shifted largely from investigation of a writer's life to a focus on the work itself Whether applying the theories of Freud and Lacan drawing upon theoretical work in women's studies and men's studies or emphasizing the rigid determinacy of psychological pressure the essays included in this collection show Faulkner's works to be unquestionably rich in psychological materials *CliffsNotes on Faulkner's The Sound and the Fury* James L. Roberts, 1999-03-03 The original CliffsNotes study guides offer expert commentary on major themes plots characters literary devices and historical background The latest generation of titles in this series also feature glossaries and visual elements that complement the classic familiar format In CliffsNotes on The Sound and the Fury you explore what is considered to be one of William Faulkner's greatest novels The Sound and the Fury tells the story of the decline of the once aristocratic Compson family of Yoknapatawpha County in northern Mississippi as told in stream of consciousness by three brothers Benjamin Quentin and Jason Summaries and commentaries guide you through each section of the novel and critical essays help you understand the origin of the book's title the structure of the book and Faulkner's stream of consciousness style of writing Other features that help you study include A section on the life and background of William Faulkner A special guide to the Benjy section the most difficult section of the novel Analyses of the major characters An additional critical essay on meaning through motif in the novel Review questions and essay topics Classic literature or modern day treasure you'll understand it all with expert information and insight from CliffsNotes study guides Faulkner's Marginal Couple John N. Duvall, 2014-07-03 Is William Faulkner's fiction built on a fundamental dichotomy of outcast individual versus the healthy agrarian community The New Critics of the 1930s advanced this view and it has shaped much Faulkner criticism However in Faulkner's Marginal Couple John Duvall posits the existence of another possibility alternative communities formed by deviant couples These couples who violate normal gender roles and behaviors challenge the either/or view of Faulkner's world The study treats in detail the novels Light in August The Wild Palms Sanctuary Pylon and Absalom Absalom as well as several of Faulkner's short stories In discussing each work Duvall challenges the traditional view that Faulkner created active men who follow a code of honor and passive women who are close to nature Instead he charts the many instances of men who are nurturing and passive and women who are strong and sexually active These alternative couples undermine a common view of Faulkner as an upholder of Southern patriarchal values thus countering the argument that Faulkner's fiction is essentially misogynist This new approach drawing on semiotics feminism and Marxism makes Faulkner more accessible to readers interested in ideological

analysis It also stresses the intertextual connections between Faulkner's Yoknapatawpha and non-Yoknapatawpha fiction Perhaps most importantly it uncovers what the New Criticism concealed namely that Faulkner's fiction traces the full androgynous spectrum of the human condition

The Fourth Ghost Robert H. Brinkmeyer, Jr., 2009-01-01 In the 1949 classic Killers of the Dream Lillian Smith described three racial ghosts haunting the mind of the white South the black woman with whom the white man often had sexual relations the rejected child from a mixed race coupling and the black mammy whom

the white southern child first loves but then must reject In this groundbreaking work Robert H Brinkmeyer Jr extends Smith's work by adding a fourth ghost lurking in the psyche of the white South the specter of European Fascism He explores how southern writers of the 1930s and 1940s responded to Fascism and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system As Brinkmeyer shows nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism Their responses varied widely ranging from repression and denial to the repulsion of self recognition With penetrating insight Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture He shows how white southern writers both those writing cultural criticism and those writing imaginative literature turned to Fascist Europe for images analogies and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie Brinkmeyer considers the works of a wide range of authors of varying political stripes the Nashville Agrarians W J Cash Lillian Smith William Alexander Percy Thomas Wolfe William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar *The Fourth Ghost* offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development **The Faulkner Newsletter & Yoknapatawpha Review** ,1992
