La Monte Young, Marian Zazeela ,1969 Draw a Straight Line and Follow It Jeremy Grimshaw,2011 Recognized as the patriarch of the minimalist movement Brian Eno once called him the daddy of us all La Monte Young remains an enigma within the music world one of the most important and yet most elusive composers of the late twentieth century Early in his career Young almost completely eschewed the conventional musical institutions of publishers record labels and venues in order to create compositions completely unfettered by commercial concerns Yet at the same time he exercised profound influence on such varied figures as Terry Riley Cornelius Cardew Andy Warhol Yoko Ono David Lang The Velvet Underground and entire branches of electronica and drone music For half a century he and his partner and collaborator

Marian Zazeela have worked in near seclusion in their Tribeca loft creating works that explore the furthest extremes of conceptual audacity technical sophistication acoustical complexity and overt spirituality Draw A Straight Line and Follow It The Music and Mysticism of La Monte Young stands as the first narrative study to examine Young s life and work in detail The book is a culmination of a decade of research during which author Jeremy Grimshaw gained rare access to the composer and his archives Loosely structured upon the chronology of the composer's career the book takes a multi disciplinary approach that combines biography musicology ethnomusicology and music analysis and illuminates such seemingly disparate aspects of Young's work as integral serialism and indeterminacy Mormon esoterica and Vedic mysticism and psychedelia and psychoacoustics Draw A Straight Line and Follow It is a long awaited in depth look at one of America's most fascinating musical figures Sonic Sculpture and the Performative Impulse Melissa Christine Warak, 2025-03-28 This study considers the performativity of sound producing sculptures made in the twenty first century through a cultural history of certain works A subfield of the sound art medium sonic sculpture presents new possibilities in sensory engagement with the viewer creating a mediated experience for eye and ear Contextualized within three linking nodes of sonic engagement sonic sculpture as a socially engaged art listening to history and the use of the human body as the material of sonic sculpture itself each chapter interrogates one or two works by a contemporary artist These in depth analyses of the works serve as lenses to the artists larger practices and engagements with things that sound Artists covered include Nick Cave Kara Walker Janet Cardiff George Bures Miller and Ragnar Kjartansson The book will be of interest to scholars working in art history sound The ^AOxford Handbook of Sound Art Jane Grant, John Matthias, David studies musicology and cultural studies Prior, 2021-09-27 The Oxford Handbook of Sound Art surveys the practices politics and emerging frameworks of thought that now define the artistic practice of sound art Sound & Light Environment La Monte Young, Marian Zazeela, 1989

Gagné, 2019-07-17 The contemporary music scene thus embodies a uniquely broad spectrum of activity which has grown and changed down to the present hour With new talents emerging and different technologies developing as we move further into the 21st century no one can predict what paths music will take next All we can be certain of is that the inspiration and originality that make music live will continue to bring awe delight fascination and beauty to the people who listen to it This book cover modernist and postmodern concert music worldwide from the years 1888 to 2018 This second edition of Historical Dictionary of Modern and Contemporary Classical Music contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the most important composers musicians methods styles and media in modernist and postmodern classical music worldwide from 1888 to 2018 This book is an excellent resource for students researchers and anyone wanting to know more about modern and contemporary classical music The Names of Minimalism Patrick Nickleson, 2023-01-19 Minimalism stands as the key representative of 1960s radicalism in art music histories but always as a failed project In The

Names of Minimalism Patrick Nickleson holds in tension collaborative composers in the period of their collaboration as well as the musicological policing of authorship in the wake of their eventual disputes Through examinations of the droning of the Theatre of Eternal Music Reich's Pendulum Music Glass's work for multiple organs the austere performances of punk and no wave bands and Rhys Chatham and Glenn Branca's works for massed electric guitars Nickleson argues for authorship as always impure buzzing and indistinct Expanding the place of Jacques Ranci re s philosophy within musicology Nickleson draws attention to disciplinary practices of guarding compositional authority against artists who set out to undermine it The book reimagines the canonic artists and works of minimalism as early minimalism to show that art music histories refuse to take seriously challenges to conventional authorship as a means of defending the very category art music Ultimately Nickleson asks where we end up if we imagine the early minimalist project artists forming bands to perform their own music rejecting the score in favor of recording making extensive use of magnetic type as compositional and archival medium hosting performances in lofts and art galleries rather than concert halls not as a utopian moment within a 1960s counterculture doomed to fail but as the beginning of a process with a long and influential afterlife Crisis Style Michael Dango, 2021-11-16 In this expansive and provocative new work Michael Dango theorizes how aesthetic style manages crisis and why taking crisis seriously means taking aesthetics seriously Detoxing filtering bingeing and ghosting these are four actions that have come to define how people deal with the stress of living in a world that seems in permanent crisis As Dango argues they can also be used to describe contemporary art and literature Employing what he calls promiscuous archives Dango traverses media and re shuffles literary and art historical genealogies to make his case The book discusses social media filters alongside the minimalism of Donald Judd and La Monte Young and the television shows The West Wing and True Detective It reflects on the modernist cuisine of Ferran Adri and the fashion design of Issey Miyake And it dissects writing by Barbara Browning William S Burroughs Raymond Carver Mark Danielewski Jennifer Egan Tao Lin David Mitchell Joyce Carol Oates Mary Robison and Zadie Smith Unpacking how the styles of these works detox filter binge or ghost their worlds Crisis Style is at once a taxonomy of contemporary cultural production and a theorization of action in a world always in need of repair Ultimately Dango presents a compelling argument for why we need aesthetic theory to understand what we re doing in our world today Not For Tourists Guide to New York City 2024 Not For Tourists, 2023-09-05 With details on everything from the Empire State Building to Max Fish this is the only guide a native or traveler needs to navigate New York s neighborhoods and find the best restaurants shopping and more The Not For Tourists Guide to New York City is a map based neighborhood by neighborhood dream guide designed to lighten the load of already street savvy New Yorkers commuters business travelers and yes tourists too Each map is marked with user friendly icons identifying NFT s favorite picks around town from essentials to entertainment and includes invaluable neighborhood descriptions written by locals highlighting the most important features of each area The book includes everything from restaurants bars shopping and

The book draws a bespoke affinity and similarity between current musical practices and those from before the advent of notation and recording stressing the importance of instrument design in the study of new music and projecting how new computational technologies including machine learning will transform our musical practices Sonic Writing offers a richly illustrated study of contemporary musical media where interactivity artificial intelligence and networked devices disclose new possibilities for musical expression Thor Magnusson provides a conceptual framework for the creation and analysis of this new musical work arguing that contemporary sonic writing becomes a new form of material and symbolic design one that is bound to be ephemeral a system of fluid objects where technologies are continually redesigned in a fast cycle of innovation Simone Forti Ann Cooper Albright, 2024-03-05 Simone Forti groundbreaking improvisor has spent a lifetime weaving together the movement of her mind with the movement of her body to create a unique oeuvre situated at the intersection of dancing and art practices Her seminal Dance Constructions from the 1960s crafted a new approach to dance composition and helped inspire the investigations of Judson Dance Theater In the 1970s Forti s explorations of animal movements expanded that legacy to launch improvisation as a valuable artform in its own right From her early forays into vocal accompaniment to her News Animations Forti has long integrated gesture and text into compelling performances that consistently stretched the boundaries of dance to layer abstract movement with story telling and political commentary Her Land Portraits series brought an immersive ecological experience to New York City stages in the 1980s and she is a beloved teacher and mentor whose Body Mind World workshops have inspired dancers around the world In this beautifully written book author Ann Cooper Albright braids archival research extensive interviews and detailed movement analyses of Forti s performances to
