Gross, 2020-03-03 If rhetoric is the art of speaking who is listening In *Being Moved* Daniel M Gross provides an answer showing when and where the art of speaking parted ways with the art of listening and what happens when they intersect once again Much in the history of rhetoric must be rethought along the way And much of this rethinking pivots around Martin Heidegger's early lectures on Aristotle's Rhetoric where his famous topic Being gives way to being moved The results Gross goes on to show are profound Listening to the gods listening to the world around us and even listening to one another in the classroom all of these experiences become different when rhetoric is reoriented from the voice to the ear *The Routledge Companion to Sound Studies* Michael

Bull, 2018-10-29 The Routledge Companion to Sound Studies is an extensive volume presenting a comparative and historically informed understanding of the workings of sound in culture while also mapping potential future directions for research in the field. Experts from a variety of disciplines within sound studies cover such diverse topics as politics, gender, media, race, literature, and sport. Individual sections that consider the importance of sound in an increasingly mediated world, the role that sound media play in the construction of experience, and the ways in which sound has been theorized to produce a distinctive sensory contribution to knowledge. This wide-ranging and vibrant collection provides a rich resource for scholars and students of media and culture.

Keywords in Sound David Novak, Matt Sakakeeny, 2015-05-09 In twenty essays on subjects such as noise, acoustics, music, and silence, *Keywords in Sound* presents a definitive resource for sound studies and a compelling argument for why studying sound matters. Each contributor details their keyword's intellectual history, outlines its role in cultural, social, and political discourses, and suggests possibilities for further research. *Keywords in Sound* charts the philosophical debates and core problems in defining, classifying, and conceptualizing sound and sets new challenges for the development of sound studies. Contributors: Andrew Eisenberg, Veit Erlmann, Patrick Feaster, Steven Feld, Daniel Fisher, Stefan Helmreich, Charles Hirschkind, Deborah Kapchan, Mara Mills, John Mowitt, David Novak, Ana Maria Ochoa, Gautier Thomas Porcello, Tom Rice, Tara Rodgers, Matt Sakakeeny, David Samuels, Mark M. Smith, Benjamin Steege, Jonathan Sterne, Amanda Weidman.

Anthropologists, Indigenous Scholars and the Research Endeavour Joy Hendry, Laara Fitznor, 2012-11-27 This collection offers the fruits of a stimulating workshop that sought to bridge the fraught relationship which sometimes continues between anthropologists and indigenous/native/aboriginal scholars despite areas of overlapping interest. Participants from around the world share their views and opinions on subjects ranging from ideas for reconciliation, the question of what might constitute a universal science, indigenous heritage, postcolonial museology, the boundaries of the term 'indigeneity', different senses of ways of knowing, and the very issue of writing as a method of dissemination that divides and excludes readers from different backgrounds. This book represents a landmark step in the process of replacing bridges with more equal patterns of intercultural cooperation and communication.

A Poet's Glossary Edward Hirsch, 2014-04-08 A major addition to the literature of poetry, Edward Hirsch's sparkling new work is a compilation of forms, devices, groups, movements, isms, aesthetics, rhetorical terms, and folklore—a book that all readers, writers, teachers, and students of poetry will return to over and over. Hirsch has delved deeply into the poetic traditions of the world, returning with an inclusive international compendium. Moving gracefully from the bards of ancient Greece to the revolutionaries of Latin America, from small formal elements to large mysteries, he provides thoughtful definitions for the most important poetic vocabulary, imbuing his work with a lifetime of scholarship and the warmth of a man devoted to his art. Knowing how a poem works is essential to unlocking its meaning; Hirsch's entries will deepen readers' relationships with their favorite poems and open greater levels of understanding in each new poem they encounter. Shot through with the enthusiasm, authority, and sheer delight that made

The Traffic in Culture George E. Marcus, Fred R. Myers, 1995-12-21 Article by Myers annotated separately

Literature as Sound Studies yasser elhariry, Liesl Yamaguchi, 2025-06-12 Literature as Sound Studies identifies literature as a site of sonic invention and reconfiguration contributing a range of terms models and methods for attending to sound Considering literary works drawn from a range of traditions from twentieth century Moroccan poems to early modern English plays Literature as Sound Studies brings out the sophisticated ways that literary writers and commentators have used and studied sound Moving beyond the use of literature as mere ear witness to history this collection brings out the complexity of sonic figuration in literature and literary studies suggesting how this attentiveness to sound might anticipate illuminate and enrich the contemporary field of sound studies The very category of the literary considered as a subset of language writ large has often hinged on the particular attention that literary works draw to their own sound whether that sound be psychologically rehearsed as in silent reading or acoustically realized as in a theatrical performance Weaving together methods and concepts drawn from both literary and sound studies these essays make legible literature's complex role in shaping and writing a history of sound

Noise as a Constructive Element in Music Mark Delaere, 2022-09-12 Music and noise seem to be mutually exclusive Music is generally considered as an ordered arrangement of sounds pleasing to the ear and noise as its opposite chaotic ugly aggressive sometimes even deafening When presented in a musical context noise can thus act as a tool to express resistance

to predominant cultural values to society or to socioeconomic structures including those of the music industry The oppositional stance confirms current notions of noise as something which is destructive a belief not only cherished by hard core rock bands but also shared by engineers and companies developing devices to suppress or reduce noise in our daily environment In contrast to the common opinions on noise just described this volume seeks to explore the constructive potential of noise in contemporary musical practices Rather than viewing noise as a defect this volume aims at studying its aesthetic and cultural potential Within the noise music study field most recent publications focus on subgenres such as psychedelic post rock industrial hard core punk trash or rave as they developed from rock and popular music This book includes work on avant garde music developed in the domain of classical music as well In addition to already well established social historical and aesthetical perspectives on noise and noise music this volume offers contributions by music analysts

Sound Curriculum Walter S. Gershon, 2017-06-26 Part of a growing group of works that addresses the burgeoning field of sound studies this book attends not only to theoretical and empirical examinations but also to methodological and philosophical considerations at the intersection of sound and education Gershon theoretically advances the rapidly expanding field of sound studies and simultaneously deepens conceptualizations and educational understandings across the fields of curriculum studies and foundations of education A feature of this work is the novel use of audio files aligned with the arguments within the book as well as the discussion and application of cutting edge qualitative research methods

Remapping Sound Studies Gavin Steingo, Jim Sykes, 2019-03-14 The contributors to *Remapping Sound Studies* intervene in current trends and practices in sound studies by reorienting the field toward the global South Attending to disparate aspects of sound in Africa South and Southeast Asia Latin America the Middle East Micronesia and a Southern outpost in the global North this volume broadens the scope of sound studies and challenges some of the field's central presuppositions The contributors show how approaches to and uses of technology across the global South complicate narratives of technological modernity and how sound making and listening in diverse global settings unsettle familiar binaries of sacred secular private public human nonhuman male female and nature culture Exploring a wide range of sonic phenomena and practices from birdsong in the Marshall Islands to Zulu ululation the contributors offer diverse ways to remap and decolonize modes of thinking about and listening to sound Contributors Tripta Chandola Michele Friedner Louise Meintjes Jairo Moreno Ana Mar a Ochoa Gautier Michael Birenbaum Quintero Jeff Roy Jessica Schwartz Shayna Silverstein Gavin Steingo Jim Sykes Benjamin Tausig Herv Tchumkam

A Sound Word Almanac Bernd Herzogenrath, 2023-12-14 This almanac of sound words important to artists and scholars highlights words that expand the way we speak and write about sonic experiences Why write about sound and how If sonic philosophy is the attempt to think about sound by philosophical means then a metaphilosophical debate appears almost immediately on the horizon What is called for is an understanding about sound and language but also about the preconditions of musical understanding What is at stake is the question of language and sound

as well as expanding how we speak about sonic experience This almanac tackles these questions from artistic experimental and personal perspectives An assemblage of nearly 70 practitioners and theoreticians artists and scholars offer their favorite sound word These sound words are onomatopoeical mythological practical words of personal importance to the artists and their craft words from their memory related to sound Many entries are not in English some are untranslatable and all are accompanied by a personal explanatory poetic entry These are words that have the potential to change our perspective on listening musicking thinking **Sound of Africa!** Louise Meintjes, 2003-02-05 An ethnography of the recording of Mbaqanga music that examines its relation to issues of identity South African politics and global political economy

Analyzing Popular Music Allan F. Moore, 2003-05-22 How do we know music We perform it we compose it we sing it in the shower we cook sleep and dance to it Eventually we think and write about it This book represents the culmination of such shared processes Each of these essays written by leading writers on popular music is analytical in some sense but none of them treats analysis as an end in itself The book presents a wide range of genres rock dance TV soundtracks country pop soul easy listening Turkish Arabesk and deals with issues as broad as methodology modernism postmodernism Marxism and communication It aims to encourage listeners to think more seriously about the social consequences of the music they spend time with and is the first collection of such essays to incorporate contextualisation in this way **Music, Piety, and Propaganda** Alexander J. Fisher, 2013-12-05 Music Piety and Propaganda The Soundscapes of Counter Reformation Bavaria explores the nature of sound as a powerful yet ambivalent force in the religious struggles that permeated Germany during the Counter Reformation Author Alexander J Fisher goes beyond a musicological treatment of composers styles and genres to examine how music and more broadly sound itself shaped the aural landscape of Bavaria as the duchy emerged as a militant Catholic bulwark Fisher focuses particularly on the ways in which sound including bell ringing gunfire and popular song as well as cultivated polyphony not only was deployed by Catholic secular and clerical elites to shape the religious identities of Bavarian subjects but also carried the potential to challenge and undermine confessional boundaries Surviving literature archival documents and music illustrate the ways in which Bavarian authorities and their allies in the Catholic clergy and orders deployed sound to underline crucial theological differences with their Protestant antagonists notably the cults of the Virgin Mary the Eucharist and the saints Official and popular rituals like divine worship processions and pilgrimages all featured distinctive sounds and music that shaped and reflected an emerging Catholic identity Although officials imposed a severe regime of religious surveillance the Catholic state's dominance of the soundscape was hardly assured Fisher traces archival sources that show the resilience of Protestant vernacular song in Bavaria the dissemination and performance of forbidden anti Catholic songs the presence of Lutheran chorales in nominally Catholic church services into the late 16th century and the persistence of popular noise more generally Music Piety and Propaganda thus reveals historical theological and cultural issues of the period through the piercing dimension of its sounds bringing into focus the import of sound as a

strategic cultural tool with significant impact on the flow of history **That Divine and Most Excellent Gift** Mark P. Bangert, 2025-10-28 How is music a divine and most excellent gift of God as Martin Luther called it in his preface to a 1538 music collection This posthumous compilation of writing by scholar teacher and musician Mark P Bangert explores Luther's theological views on music and how they might be both inspiration and model for believers today
