Terrible Sociability The Text Of Manners In Laclos Goethe And James:

Terrible Sociability Susan Winnett, 1993-09-01 This is a book about the novel of manners or mondane as a form It examines how the customs mores and rules of personal intercourse allow novelists to write about precisely those aspects of human experience that are quite unmannerly Readings of Laclos's Dangerous Liaisons Goethe's Elective Affinities and Henry James's The Golden Bowl show how each text addresses the manners organizing society in such a way as to engage the issues that most threaten the novel of manners itself Because manners are ostensibly conservative these works manifest a productive tension between their conventions of representation and overt ideological concerns on the one hand and their hidden agendas on the other Winnett not only shows how each novelist uses a particular set of formal conventions to articulate a theme he would not have been able to treat directly but also what it means to choose manners to represent concerns that manners would seem to proscribe

Voegelinian Readings of Modern Literature Charles R. Embry, 2011-05-16 These essays supply a theoretical grounding for the reading of novels poems and plays and reveal how the Voegelinian perspective exposes the existential and philosophical dimensions of the literary works themselves As a unit this collection of essays shows how modern pieces of literature can symbolize their creators participation in the human search for the truth of existence just as myths philosophical works and religious texts always have Voegelin's primary concern as a philosopher was to expose the roots of the disturbances of the modern era religious conflict imperialism war so that the sources of order leading to meaning are revealed The openness of Voegelinian thought and the many ways he considered the levels of reality generate intriguing themes for literary criticism

Encyclopedia of the Novel Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world

Performing the Everyday in Henry James's Late Novels Maya Higashi Wakana, 2016-05-13 Focusing on James's last three completed novels The Ambassadors The Wings of the Dove and The Golden Bowl Maya Higashi Wakana shows how a microsociological approach to James's novels radically revises the widespread tradition of putting James's characters into historical and cultural contexts Wakana begins with the premise that day to day living is inherently theatrical and thus duplicitous and goes on to show that James's art relies significantly on his powerful sense of the agonizing and even dangerous complications of mundane face to face rituals that pervade his work Centrally informed by social thinkers such as G H Mead and Erving Goffman Wakana's study discloses the

richness complexity and singularity of the interpersonal connections depicted in James's late novels Persuasively argued and rich in original close readings her book makes an important contribution to James's studies and to theories of social interaction

Prospects for the Study of American Literature Richard Kopley, 1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain

Bad Form Kent Puckett, 2013-01-31 Bad Form argues that the social mistake the blunder the gaffe the faux pas is crucial to the structure of the nineteenth century novel

Models of Reading Martha J. Koehler, 2005 Models of Reading will be of interest to Richardson Burney and Laclos scholars as well as specialists in the history of the novel the culture of sensibility epistolary fiction gender and theories of reading Koehler's arguments incorporate much recent criticism of eighteenth century fiction making this study a useful compendium even beyond the value of its own findings

Textual Promiscuities Antoinette Marie Sol, 2002 Drawing on correspondence novels literary criticism and other documents by Riccoboni Laclos and Burney Antoinette Sol demonstrates how these novelists traditionally separated by nationality gender and genre are in fact concerned with similar issues of individual authority and social criticism She shows how arbitrary literary categorization of these writers as sentimental or libertine has kept their work from a reading which reveals their commonalities
