**The Battle and Backlash Rage On** Stacey Elin Rossi,2004-07-07 In The Battle and Backlash Rage On Why feminism cannot be obsolete edited by Stacey Elin Rossi hot topics include misogyny antifeminism and or bigotry in men s rights groups and feminist groups such as ifeminists critiques of the mainstream view that feminism is an outdated idea and no longer needed contemporary obstacles to overcoming backlash such as corrupt manipulation of data in antifeminist rhetoric and the like Issues covered include Rhetorical denial that men hold the responsibility to end rape Me too ism by some men in regard to women s only programs such as healthcare Distortion of the image of the father by mens rights groups Implicit and explicit misogyny and antifeminism among ifeminists and mens rightists Sexism and the patriarchal birthright in divorce and its harm to children manifest in the custodial decisions taking away children from their mothers and leaving them in the hands of the

abuser Prevalence of domestic violence and its impact on the nations children Backlash against an ill informed view of affirmative action and political correctness that allegedly gives privilege particularly to women The compendium presents a combination of scholarly and nonscholarly works a blend that appeals to both academics and nonacademics alike Its ultimate purpose is to demonstrate that feminism works for the benefit of all humankind and not as claimed to the detriment of men These articles and essays will hopefully demystify the issues give a desperately needed more powerful force in favor of feminism and serve to controvert rampant antifeminism which can be in effect cleverly masqueraded misogyny This material is all rather cutting edge No volume to date has encompassed these very current developments in the sexual political landscape All over the westernized world the cultural melee surrounding the issue of sex gender sounds like a cacophony of agitated voices screaming in rage From angryharry blaming global warming on feminists as well as rape on women the very victims themselves 1 to MS Magazine bulletin board participants claiming that men hate women2 the ideological battle seems to be at a greater intensity than ever before However this battle remains relatively confined to the fringes of society and to academe feminism per se is no longer part of our cultural mainstream While women all over the world particularly in developing countries are increasingly associating themselves with the label feminist women in the United States seem to be abandoning the term in droves From boardrooms to bedrooms not the four letter version but the eight letter F word appears verboten As criticized by some European feminists American women particularly those otherwise would be feminists dont like to offend their men Standing by their men they have begun to increasingly eschew feminism and even have begun to join the ranks of the enemy the mens rightists A search on the internet for articles and essays may produce thousands of hits on the obsolescence of feminism however polls and general trends indicate that the vast majority of women as well as men believe in gender equity One might hear a young woman say contradictorily Sure I believe women should be equal to men but Im not a feminist According to Geni Hawkins Somehow the term nazi has gotten tacked onto the end of the word feminist and the prevailing opinion seems to have become that the word connotes a shrill man hating bra burning I m surprised they re not still going off about us bobbing our hair unfulfilled female 3 One major unresolved and possibly unresolvable problem is unsurprisingly just how to proceed in such a splintered and alienating movement and one that has been given such a bad reputation Like so many other cultural stereotypes such as the shad
