Terrorism As A Challenge For National And International Law:

Terrorism as a Challenge for National and International Law: Security versus Liberty? Christian Walter, Silja Vöneky, Volker Röben, Frank Schorkopf, 2004-06-25 The events of 11 September 2001 have led to significant developments in international law with respect to combating terrorism by military and non military action The volume addresses the issues raised in a comprehensive manner It comprises country reports with analyses of the developments in a number of selected countries Based on these country reports the volume traces new developments in the definition of international terrorism deals with the issue of human rights protection under new anti terrorist legislation and examines the recent developments towards international military action against terrorism The 'War on Terror' and the Framework of International Law Helen Duffy, 2015-04-09 This book analyses the international legal framework governing terrorism and counter terrorism and assesses the legal issues relating to post 9 11 international practice A War on Terror? Marianne Wade, Almir Maljevic, 2009-11-05 Marianne Wade and Almir Maljevi Although the worries about terrorism paled in comparison to the economic crisis as a topic during the last US election one can find plenty of grounds to assume that they remain issue number one in the minds of politicians in Europe As the German houses of Parliament prepare to call in the mediation committee in the discussion of legislation which would provide the Federal Police thus far mandated purely with the post facto investigation of crime with powers to act to prevent acts of terrorism Spain s struggle with ETA and the British Government licks its wounds after a resounding defeat of its latest anti terrorist proposals by the House of Lords one cannot but wonder whether post 9 11 the Europeans are not even more concerned with terrorism than their US counterparts A look at media reports legislative and judicial activities in either Britain or Germany clearly underlines that those two countries are deeply embroiled in anti terrorist activity Can it be that Europe is embroiled in the War on Terror constantly providing for new arms in this conflict Or is it a refusal to participate in the War on Terror that fuels a constant need for Parliaments to grapple with the subject begrudgingly conceding one increasingly draconian measure after the other The question as to where Europe stands in the War on Terror is a fascinating one but one which is difficult to answer **International Law** Sanford Silverburg, 2018-04-19 This book offers diverse multinational perspectives on traditional and emergent issues in the practice and study of international law It deals with the evolving foundations of international law and covers a wide range of issues that link international politics to international law **Max Planck Yearbook of United Nations Law, Volume 8 (2004)** Armin Von Bogdandy, Rüdiger Wolfrum, Christiane E. Philipp, 2004-01-01 Volume eight comprises topics like the United Nations system of the use of force the U S bilateral non surrender agreements in relation to the ICC developing countries non traditional intellectual property rights and the WIPO and fact finding by UN human rights complaints bodies *Redefining Organised Crime: A Challenge for the European Union?* Stefania Carnevale, Serena Forlati, Orsetta Giolo, 2017-12-28 The definition of organised crime has long been the object of lively debate at national and international

level Sociological and legal analysis has not yet led to one definitive answer to the question of what exactly organised crime means. Nonetheless many instruments adopted both at international and national levels set forth special legal regimes designed to target criminal groups featuring a stable organisation which are perceived as particularly dangerous to society. Therefore identifying the notion of organised crime is crucial to establishing the scope of any legal instrument specifically designed for combating it. The aim of this book is to reassess the scope, the effectiveness and the overall coherence of existing definitions of organised crime and to identify any need for a reconsideration of these definitions specifically with reference to the EU legal order. It will be of interest to academics, practitioners and legislators working in the sphere of EU criminal law and of organised crime more generally.

International Humanitarian Law Facing New Challenges Wolff Heintschel von Heinegg, Volker Epping, 2007-03-06. Recent armed conflicts, whether international or non international in character, are in many respects characterized by a variety of asymmetries. These asymmetries may be overstressed, sometime even abused and ultimately virtually meaningless. Still, either as such or in conjunction with other developments, they seem to challenge the law of armed conflicts or international humanitarian law. These challenges may very well compromise the very function of that body of law which is to mitigate as far as possible the calamities of war. Thus the law of armed conflict may be deprived of its fundamental function as an order of necessity because its legally binding directives will increasingly be disregarded for the sake of allegedly superior values. In order to discuss these and other questions, a most distinguished group of experts in the field of the law of armed conflicts gathered in Berlin in June 2005. The goal of that colloquium, which marked the 70th birthday of Knut Ipsen, was to find operable solutions for problems and challenges the contemporary law of armed conflict is confronted with. With contributions by Bill Boothby, Michael Bothe, Yoram Dinstein, Knut D. Rmann, Charles J. Dunlap Jr, Volker Epping, Dieter Fleck, Steven Haines, Wolff Heintschel von Heinegg, Hans Joachim Heintze, Rainer Hofmann, Frits Kalshoven, Stefan Oeter, W. Hays Parks, Michael Schmitt, Torsten Stein and Andreas Zimmermann.

Shifting Horizons of Public International Law J.L. Kaul, Anupam Jha, 2018-01-08. This book offers a South Asian perspective on international law, maintaining a suitable distance from the Western approach. The themes discussed reflect the region's particular contribution to the development of international law. Each South Asian country has its own important role to play in promoting regional trade, regulating maritime affairs, ensuring access to water, debating State responsibility, engaging with International Criminal Court, questioning diplomatic and consular immunities and most importantly upholding human rights. These issues are addressed by local contributors from Nepal, Bangladesh and Sri Lanka who have come together to represent the whole South Asian region on a single academic platform.

Islamic Jihadism and the Laws of War Omar Mekky, 2023. Drawing from his field expertise as a legal advisor in the Middle East and North Africa, Omar Mekky narrates how Islamic Jihadism began and evolved, outlines the laws jihadists apply during combat, addresses how states often respond to jihadist groups and aims for a pragmatic humanitarian legal formula grounded in insightful readings.
