Texas Images And Visions:

Texas Images & Visions ,1983 TEXAS IMAGES AND VISIONS. ,1983 **Texas Images & Visions** William H. Goetzmann,Becky Duval Reese,1983 **Painting Texas History to 1900** Sam DeShong Ratcliffe,2014-11-06 Certificate of Commendation American Association for State and Local History 1994 T R Fehrenbach Book Award Texas Historical Commission 1992 San Antonio Conservation Society Citation 1993 Dramatic historical events have frequently provided subject matter for artists particularly in pre twentieth century Texas where works portraying historical often legendary events and individuals predominated Until now however these paintings of Texas history have never received the kind of study given to historical fictional and film versions of the same events *Painting Texas History to 1900* fills this gap with an interdisciplinary approach that explores these paintings both as works of art and as historical documents The author examines the works of more than forty artists including Henry McArdle Theodore Gentilz Robert Onderdonk William Huddle Frederic Remington Friedrich Richard Petri Arthur T Lee Seth Eastman Sarah Hardinge Frank Reaugh W G M Samuel Carl G von Iwonski and Julius Stockfleth He places each work within its historical and cultural context to show why such subject matter was chosen why it was depicted in a particular way and why such a depiction gained popular acceptance For example paintings of heroic events of the Texas Revolution were especially popular in the years following the Civil War when in Ratcliffe s view Texans needed such images to assuage the loss of the war and the humiliation of Reconstruction Though the paintings cut across traditional art history categories from the pictographs of early historic Indians to European inspired oil paintings they are bound together by their artists intent for them to function as historically evocative documents With their visual narratives of events that characterized all of America s westward expansion Indian encounters military battles farming ranching surveying and the closing of the frontier these works add an important chapter to the story of the American West

Texas Made Modern Shirley Reece-Hughes,2020-09-25 Everett Spruce came to Texas from his Arkansas home in 1925 to study at the Dallas Art Institute Over the next seven decades he became one of the most important painters and teachers in the region One of the Dallas Nine a group of influential Texas Regionalists that included Jerry Bywaters Otis Dozier William Lester and others Spruce was among the artists who lobbied the Texas Centennial Commission for a greater role in the Centennial Exposition of 1936 These efforts though unsuccessful nevertheless led to greater recognition and influence for Texas art and artists Spruce was assistant director and taught art at the Dallas Museum of Fine Arts until 1940 when he joined the faculty of the University of Texas at Austin He painted and taught at the university for the next 38 years guiding and shaping the next generation of Texas artists including Roger Winter William Hoey and others Spruce died in 2002 at the age of 94 *Texas Made Modern* The Art of Everett Spruce traces Spruce s artistic evolution from his early experimental work of the 1920s through the mysterious surrealist imbued landscapes of the 1930s The work addresses his boldly expressionistic imagery of the 1940s and his abstract expressionist inspired paintings of the mid twentieth century Departing from previous

accounts of Spruce which label him a prototypical regionalist this study reveals the nuanced meanings behind the artist's shifting approaches to Texas subject matter and resituates his artwork within the broader narrative of American art

Discovering Texas History Bruce A. Glasrud, Light Townsend Cummins, Cary D. Wintz, 2014-09-09 The most comprehensive and up to date guide to Texas historiography of the past quarter century this volume of original essays will be an invaluable resource and definitive reference for teachers students and researchers of Texas history Conceived as a follow up to the award winning A Guide to the History of Texas 1988 Discovering Texas History focuses on the major trends in the study of Texas history since 1990 In two sections arranged topically and chronologically some of the most prominent authors in the field survey the major works and most significant interpretations in the historical literature Topical essays take up historical themes ranging from Native Americans Mexican Americans African Americans and women in Texas to European immigrant history literature the visual arts and music in the state and urban and military history Chronological essays cover the full span of Texas historiography from the Spanish era through the Civil War to the Progressive Era and World Wars I and II and finally to the early twenty first century Critical commentary on particular books and articles is the unifying purpose of these contributions whose authors focus on analyzing and summarizing the subjects that have captured the attention of professional historians in recent years Together the essays gathered here will constitute the standard reference on Texas historiography for years to come guiding readers and researchers to future ever deeper discoveries in the history of Texas

Computer Vision and Image Processing Linda Shapiro, 1992-04-27 Computer Vision and Image Processing contains review papers from the Computer Vision Graphics and Image Processing volume covering a large variety of vision related topics Organized into five parts encompassing 26 chapters the book covers topics on image level operations and architectures image representation and recognition and three dimensional imaging The introductory part of this book is concerned with the end to end performance of image gathering and processing for high resolution edge detection It proposes methods using mathematical morphology to provide a complete edge detection process that may be used with any slope approximating operator This part also discusses the automatic control of low level robot vision presents an image partitioning method suited for parallel implementation and describes invariant architectures for low level vision The subsequent two sections present significant topics on image representation and recognition Topics covered include the use of the primitives chain code the geometric properties of the generalized cone efficient rendering and structural statistical character recognition algorithms multi level thresholding for image segmentation knowledge based object recognition system and shape decomposition method based on perceptual structure The fourth part describes a rule based expert system for recovering three dimensional shape and orientation A procedure of intensity guided range sensing to gain insights on the concept of cooperative and iterative strategy is also presented in this part The concluding part contains supplementary texts on texture segmentation using topographic labels and an improved algorithm for labeling connected components in a binary

image Additional algorithms for three dimensional motion parameter determination and surface tracking in three dimensional binary images are also provided

Midcentury Modern Art in Texas Katie Robinson Edwards, 2014-07-01

Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state's dramatic history and geography This barely known chapter in the story of American art is the focus of *Midcentury Modern Art in Texas* Presenting new research and artwork that has never before been published Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era's most abstract and compelling artists Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art's Americans exhibitions The first full length treatment of abstract art in Texas during this vital and canon defining period *Midcentury Modern Art in Texas* gives these artists their due place in American art while also valuing the quality of Texan-ness that subtly undergirds much of their production

Framed Visions Gerd Gemunden, 2025-10-01

Framed Visions analyzes the pivotal role American mass media and popular culture have played in shaping the political social and psychological identity of postwar Germans and Austrians Through detailed readings of films novels plays and poems of a variety of contemporary artists including Rainer Werner Fassbinder Wim Wenders Elfriede Jelinek Herbert Achternbusch Monika Treut Peter Handke and Rolf Dieter Brinkmann Gerd Gemunden reveals the paradoxical stance of this generation toward American politics and Hollywood aesthetics On the one hand they are pulled toward a culture that has shaped childhood images tastes and desires on the other they reject American politics and the colonizing effect of its mass culture In contrast to most scholarship about the reception of U S culture abroad this study underscores the imaginary relation of contemporary German and Austrian artists to America Topics such as Americanization and cultural imperialism are therefore treated not as a foreign principle imposed from the outside but as ways that German and Austrian artists have tried to come to terms with their own problematic culture and history Gemunden's study elucidates how the culture of the United States has been mapped in contradictory ways onto questions of national and cultural identity in Germany and Austria over the last thirty years Gerd Gemunden is Assistant Professor of German and Comparative Literature Dartmouth College
