Burgess, Jeanne Hamming, 2014-10-31 Stories of the open road have a powerful sway over our imagination particularly in America where the vast web of interstate highways transformed the national identity as well as the national landscape Sometimes seen as the harbinger of a golden future other times as the conduit of a dehumanized dystopia the highway reflects some of our most potent fantasies as well as our deepest anxieties about modernity ecology commerce and individuality In a work rich in embedded multimedia Helen J. Burgess and Jeanne Hamming look at cultural and media representations of the highway in planning documents industrial films corporate ephemera and science fiction narratives to explore how these stories of the road have reconfigured how we think about ourselves and our world Highways of the Mind available only on the Apple iBookstore site in iBook format shows how the stories we tell about the highway whether in the service of national pride corporate advertising urban planning or apocalyptic warnings determine how we imagine or fail to imagine the possibilities for human action in built environments

*Here I Stand* Angela Joan Smith, 2017-10-03 John Beecher 1904-1980 never had the public prominence of his famous ancestors but as a poet professor sociologist New Deal administrator journalist and civil rights activist he spent his life fighting for the voiceless and oppressed with a distinct moral sensibility that reflected his self-identification as the twentieth century torchbearer for his famous family While John Beecher had many vocations in his lifetime he always considered himself a poet and a teacher Some critics have compared the populist elements of Beecher's poetry to the work of Walt Whitman and Carl Sandburg but his writing never gained a broad audience or critical acclaim during his lifetime This book examines Beecher's writing and activism and places them in the broader context of American culture at pivotal points in the twentieth century **Strategic Marketing in Library and Information Science** Irene Owens, 2002 Combine marketing and strategic planning techniques to make your library more successful With cutting edge research studies as well as theoretical chapters that have not been seen before in the marketing literature for LIS this book examines the current and quite limited state of marketing by LIS practitioners and institutions It provides you with examples of how marketing can be made more widely applicable within LIS and illustrates some of the usefulness of marketing in special LIS settings and contexts The book explains how and why managers should combine marketing strategy with strategic planning and demonstrates the means by which LIS could move toward a more full fledged use of marketing relationship marketing and social marketing in particular In order to be a more effective tool Strategic Marketing in Library and Information Science is

unpublished materials including letters and interviews this part biography and part social history creates a vivid picture of what life was like for the touring actor during WWII and beyond Recreating twelve of Wolfit's touring dates throughout Great Britain and North America this volume also demonstrates theatre's importance as a source of mass entertainment and education as well as a propaganda tool Despite Wolfit's popular appeal at the time he was doomed to remain on the periphery of the theatrical establishment This book contends that Wolfit deserves to be recognized for his efforts in maintaining public morale during times of stress Theatre of the People will appeal not only to those interested in drama but also to students and scholars of history and popular entertainment in the 1940s and 1950s
