Bernard Quaritch (Firm)

Text Of The History Of Architec 2nd Edition:

American Architects and Texts Juan Pablo Bonta,1996 In this volume the author analyzes 400 architectural books and articles published over the past 150 years to reveal changing societal preferences in architecture and to measure the reputations of individual architects the text includes a ranked list of the 100 most famous architects *Journal of the Royal Institute of British Architects* ,1928 The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine,2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage **The Mental Life of the Architectural Historian** Gevork Hartoonian,2014-08-11 Starting with the question concerning the discursive formation of architectural history the chapters compiled in this book attempt to re read the historiography of early modern architecture from the point of view of the theoretical work produced since the post war era Central to the objectives of the argument are the ways in which firstly architectural history differs from the traditions of art history and secondly that the historical narrative works its autonomy through theoretical representation the discursive flow of which is interrupted by the historian s urge to support arguments with references to buildings texts drawings and historical events The historians discussed in this volume are those regularly addressed by most critics revisiting modern architectural history Individual chapters are dedicated to N Pevsner H R Hitchcock and S Giedion an economy of selection that is formative for a critical understanding of the canon established by these historians Themes such as periodization autonomy and time are discussed and the coda of the final chapter expands on the scope of critical historiography popularised by Kenneth Frampton and Manfredo Tafuri The Kalendar of the Royal Institute of British Architects Royal Institute of British Architects,1907 **Architect** ,1912 **Catalogue** Bernard Quaritch (Firm),1903 **Catalogue of Works on the Fine Arts** Bernard

Quartich,1904 **Catalogue of Works on the Fine Arts Offered at the Net Prices Affixed** Bernard Quaritch
