Islands, Identity and the Literary Imagination Elizabeth McMahon, 2016-07-09 Australia is the planet's sole island continent This book argues that the uniqueness of this geography has shaped Australian history and culture including its literature Further it shows how the fluctuating definition of the island continent throws new light on the relationship between islands and continents in the mapping of modernity The book links the historical and geographical conditions of islands with their potent role in the imaginaries of European colonisation It prises apart the tangled web of geography fantasy desire and writing that has framed the Western understanding of islands both their real and material conditions and their symbolic power from antiquity into globalised modernity The book also traces how this spatial imaginary has shaped the modern man who is imagined as being the island's mirror The inter relationship of the island fantasy colonial expansion and the literary construction of place and history created a new man the dislocated and alienated subject of post colonial modernity This book looks at the contradictory images of islands from the allure of the desert island as a paradise where the world can be made anew to their roles as prisons as these ideas are made concrete at moments of British colonialism It also considers alternatives to viewing islands as objects of possession in the archipelagic visions of island theorists and writers It compares the European understandings of the first and last of the new worlds the Caribbean archipelago and the Australian island

continent to calibrate the different ways these disparate geographies unified and fractured the concept of the planetary globe In particular it examines the role of the island in this process specifically its capacity to figure a graspable globe in the mind The book draws on the colonial archive and ranges across Australian literature from the first novel written and published in Australia by a convict on the island of Tasmania to both the ancient dreaming and the burgeoning literature of Aboriginal and Torres Strait Islanders in the twenty first century It discusses Australian literature in an international context drawing on the long traditions of literary islands across a range of cultures The book s approach is theoretical and engages with contemporary philosophy which uses the island and the archipelago as a key metaphor It is also historicist and includes considerable original historical research [Tolkien in the Twenty-First Century](#) Nick Groom,2023-09-05 An original and thought provoking reassessment of J R R Tolkien s world revealing how his visionary creation of Middle Earth is more relevant now than ever before What is it about Middle Earth and its inhabitants that has captured the imagination of millions of people around the world And why does Tolkien s visionary creation continue to fascinate and inspire us eighty five years after its first publication Beginning with Tolkien s earliest influence and drawing on key moments from his life Tolkien in the Twenty First Century is an engaging and vibrant reinterpretation of the beloved author s work Not only does it trace the genesis and inspiration for the original books but the narrative also explores the later film and literary adaptations that have cemented his reputation as a cultural phenomenon Delving deep into topics such as friendship failure the environment diversity and Tolkien s place in a post Covid age Nick Groom takes us on an unexpected journey through Tolkien s world revealing how it is more relevant now than perhaps Tolkien himself ever envisioned *Genre in English Medical Writing, 1500-1820* Irma Taavitsainen,Turo Hiltunen,Jeremy J. Smith,Carla Suhr,2022-10-13 This multidisciplinary volume offers new insights into the development of genres of medical discourse in changing socio cultural contexts **American Reference Books Annual** Juneal M. Chenoweth,1995-04-15 With more than 1600 descriptive and evaluative entries ARBA continues its 26 year tradition as a comprehensive review source for reference works published or distributed in the US ARBA 95 encompasses the subject spectrum covering such broad areas as general reference history education economics and business and science and technology Of special note in this edition is increased coverage of CD ROM products More than 350 reviewers provide reviews that cover strengths and weaknesses of the reference works **Great Desert Explorers** Andrew Goudie,2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy However the informative and absorbing descriptions of the extraordinary journeys challenges and achievements of these intrepid figures are captivating They risked their lives variously for good old fashioned epic adventure solitude fame the answer to mythical questions and some were even spies They experienced fear excitement and hardship in their journeys into the unknown There are many books on exploration but remarkably few on desert exploration Moreover some of the great desert explorers of the last three hundred years are now

very little remembered or appreciated in comparison say with those who ventured to the poles climbed Everest or sought the source of the Nile Yet crossing unknown deserts is no less challenging This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world s greatest deserts There is also a brief introduction to each desert region The many original quotations illustrations and maps contemporary figures as well as plates of a range of desert landscapes make this a colourful lively and informative read
