Double Visions, Double

Fictions Baryon Tensor Posadas, 2018-02-28 A fresh take on the doppelgänger and its place in Japanese film and literature

past and present Since its earliest known use in German Romanticism in the late 1700s the word Doppelgänger double walker can be found throughout a vast array of literature culture and media This motif of doubling can also be seen traversing historical and cultural boundaries Double Visions Double Fictions analyzes the myriad manifestations of the doppelgänger in Japanese literary and cinematic texts at two historical junctures the interwar period of the 1920s and 1930s and the present day According to author Baryon Tensor Posadas the doppelgänger marks the intersection of the historical impact of psychoanalytic theory the genre of detective fiction in Japan early Japanese cinema and the cultural production of Japanese colonialism He examines the doppelgänger's appearance in the works of Edogawa Rampo Tanizaki Jun ichiro and Akutagawa Ryunosuke as well as the films of Tsukamoto Shin ya and Kurosawa Kiyoshi not only as a recurrent motif but also as a critical practice of concepts Following these explorations Posadas asks What were the social political and material conditions that mobilized the desire for the doppelgänger And how does the doppelgänger capture social transformations taking place at these historical moments Double Visions Double Fictions ultimately reveals how the doppelgänger motif provides a fascinating new backdrop for understanding the enmeshment of past and present
