The Mystic Psychology Of The Buddhist Theory Of Caste:

Linguistic Approach to Buddhist Thought Genjun Sasaki, 1986 Dr Sisir Kumar Mitra's book entitled *The Early Rulers of Khajuraho* constitutes a welcome addition to the existing literature on the history of the Chandellas of Bundelkhand. He gives a comprehensive and fascinating account of the varied activities of this distinguished family of rulers based on a minute and detailed study of the material which he collected with great industry and thoroughness from diverse sources indigenous and foreign literary and archaeological. Though most of his data have been compiled from epigraphic sources, he is not over zealous in his estimate of the importance and reliability of inscriptional material which he examines as critically as any piece of literary material. He has discussed the controversial issues connected with his subject without any bias. His chapters on administrative, social, economic and religious history will be specially useful to those interested in the compilation of epigraphic material bearing on the evolution of ancient Indian culture.

The Leap Steve Taylor, 2017-03-07 It is commonly thought that enlightenment is unattainable for ordinary people living in modern Western society and is reserved for monks or gurus leading a spiritually dedicated life in remote locations. After researching mystical experiences and interviewing people who claim to have had them, psychologist Steve Taylor found that normal, modern-day people from different faiths and walks of life have also reached modes of higher consciousness. In fact, these experiences are more common than we realize. Drawing on his knowledge of different religious traditions, Taylor set out to find the common features of these awakened states and how the rest of us might also achieve wakefulness. In this book, Taylor uncovers the different types of wakefulness: natural, gradual, and

sudden The difference between fraudulent spiritual teachers and the genuinely awakened The sometimes disorienting effects of spiritual awakenings on those who undergo them How different theories of consciousness explain or try to debunk mystical experiences Above all Taylor reminds us that we don't have to join an ashram in a distant country to attain enlightenment but that we can find it where we are right now
