The Myth Of New History Techniques And Tactics Of Mythologists:

The Myth of New History Techniques and Tactics of Mythologists David L. Hoggan, 1985-10-01 **The Myth of the "new History"** David Leslie Hoggan, 1965 **Building the Kingdom of God on Earth** Martin Erdmann, 2005-03-31 In his book *Building the Kingdom of God on Earth* Dr Erdmann deals primarily with John Foster Dulles participation in the ecumenical movement from 1919 to 1945 Dulles role in shaping the religious economic and political policies of the Federal Council of Churches in its support of world order and peace especially in his function as chairman of the Commission on a Just and Durable Peace was crowned with success in the founding of the United Nations Organisation in 1945 His personal friends Philip Kerr Lord Lothian and Lionel Curtis the principal leaders of the Round Table Group come into the pictures at various times By and large they pursued the same objectives as those of Dulles The book shows the detailed influence of the Round Table Group and its affiliated organisations such as the Royal Institute of International Affairs London and the Council for Foreign Relations New York City on the ecumenical movement using it successfully for their purpose of creating an international community of nations The Study of History ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided Liberation Historiography John Ernest, 2004 As the story of the United States was recorded in pages written by white historians early nineteenth century African American writers faced the task of piecing together a counterhistory an approach to history that would present both the necessity of and *Christian Reconstruction* Michael J. McVicar, 2015-04-27 This is the first critical history of Christian Reconstruction and its founder and champion theologian and activist Rousas John Rushdoony 1916 2001 Drawing on exclusive access to Rushdoony s personal papers and extensive correspondence Michael J McVicar demonstrates the considerable role Reconstructionism played in the development of the radical Christian Right and an American theocratic agenda As a religious movement Reconstructionism aims at nothing less than reconstructing individuals through a form of Christian governance that if implemented in the lives of U S citizens would fundamentally alter the shape of American society McVicar examines Rushdoony s career and traces Reconstructionism as it grew from a grassroots populist movement in the 1960s to its height of popularity in the 1970s and 1980s He reveals the movement s galvanizing role in the development of political conspiracy theories and survivalism libertarianism and antistatism and educational reform and homeschooling The book demonstrates how these issues have retained and in many cases gained potency for conservative Christians to the present day despite the decline of the movement itself beginning in the 1990s

McVicar contends that Christian Reconstruction has contributed significantly to how certain forms of religiosity have become central and now familiar aspects of an often controversial conservative revolution in America

History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book s chapters e g Mora s Marx s D B Weiner s examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease

Writings on American History, 1962-73 ,1985 This book provides a comprehensive listing of the book length works published from 1962 to 1973 that are relevant to the study of American history and is organized into a subject classification system This bibliography gives access to over 50 000 works on the history the geography and the political social and economic aspects of the United States its people its government and its institutions The entries cover the entire area now within the United States or under its jurisdiction ranging from prehistoric times to 1973 Introd

The Mythology of Modern Law Peter Fitzpatrick, 2002-09-11 The Mythology of Modern Law is a radical reappraisal of the role of myth in modern society Peter Fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society
