The Myth of the Eternal Return Mircea Eliade, 2005 A Princeton classic edition P 4 of cover **The Myth of the Eternal Return** Mircea Eliade, 2021-10-12 First published in English in 1954 this founding work of the history of religions secured the North American reputation of the Romanian migr scholar Mircea Eliade Making reference to an astonishing number of cultures and drawing on scholarship published in no fewer than half a dozen European languages The Myth of the Eternal Return illuminates the religious beliefs and rituals of a wide variety of archaic religious cultures While acknowledging that a return to their practices is impossible Eliade passionately insists on the value of understanding their views to enrich the contemporary imagination of what it is to be human This book includes an introduction from Jonathan Z Smith that provides essential context and encourages readers to engage in an informed way with this classic text **The Western Crisis of Truth in the Early 21st Century** Arvydas Grišinas, 2024-12-16 The Western Crisis of Truth in the Early 21st Century explores the symbolic experiential and associative side of contemporary political culture arguing that phenomena such as post truth digitalization mediatization propaganda illiberalism or populism far from being curiosities have in fact come to represent a uniform aspect of political culture a challenge to the enlightened developed and progressive world that we believed ourselves to be inhabiting Through analyses of visual and textual material such as internet memes academic discourse news articles videos and other media it considers truth making in the epoch of Russia s war in Ukraine Donald Trump the hyper rationalist ritualism of managing the COVID 19 pandemic and the shifting realities on the Eastern border of the West in order to shed light on the transfiguration of the western intellectual tradition by the global political technological and intellectual dynamics of a world that is far from approaching the end of history Asking what is to be done in the face of this new reality The Western Crisis of Truth in the Early 21st Century considers whether the dissident literature of Central and Eastern Europe which has already lived through a period of disenlightenment under the Soviet Union as well as other Eastern European movements of dignity and independence might offer answers A study of the dimming of the Enlightenment this volume will appeal to scholars of social and political theory and political anthropology *The Wiley Blackwell Companion to Religion and Materiality* Vasudha Narayanan, 2020-04-16 The Wiley Blackwell Companion to Religion and Materiality provides a thoughtfully organized inclusive and vibrant project of the multiple ways in which religion and materiality intersect The contributions explore the way that religion is shaped by and has shaped the material world embedding beliefs doctrines and texts into social and cultural contexts of production circulation and consumption The Companion not only contains scholarly essays but has an accompanying website to demonstrate the work of performers architects and expressive artists ranging from musicians and dancers to religious practitioners These examples offer specific illustrations of the interplay of religion and materiality in everyday life The project is organized from a comparative perspective highlighting examples and case studies from traditions originating in both East and West To summarize the

Under the Gaze of God G David Williams CP,2020-11-27 The way I understand the gaze of God to have a defining influence on spiritual growth and development has as its overarching image the way a mother gazes at her infant at the breast It is a gaze that is tender all absorbing exclusive filled with wonder and love tranquil and protective Just as the mother s gaze engages the infant in a dialogue without words and provokes a response so too the gaze of God evokes a response from the human heart Just as the mutual gaze of mother and infant sets up a relationship which becomes the basis of communication so too the mutual gaze of God and the soul become the basis for prayer The main insight of the book is that the movement into union with God is circular rather than linear that it is not exclusively a movement into something new something that has not previously occurred but is also and more importantly a movement towards recapturing something which has already existed namely that relationship we enjoyed albeit pre consciously at our mother s breast when God looked upon us and saw that we were very good *The Self and the Sacred* Rodger Milton Payne,1998 From about 1740 to 1850 evangelical Protestantism became a major cultural force in virtually all areas of America Emerging from this religious movement was a rich vernacular literature of conversion narratives and spiritual autobiographies writings in which believers described their own salvation in hopes of converting others In *The Self and the Sacred* Rodger M Payne examines these neglected texts in depth focusing particularly on what they reveal about notions of selfhood and how those notions were incorporated into Christian orthodoxy As Payne explains conversion narratives point to a fascinating paradox that became evident among evangelicals as they were confronted by the disruptions and discontinuities marking their culture s passage into modernity On the one hand these narratives asserted the traditional Christian values of humility and self effacement an annihilation of the self in the divine On the other hand they created a discourse that allowed one to embrace the modern idea of an autonomous self only by speaking from personal experience could a convert testify to the power of God Despite protests to the contrary Payne writes the central character of any conversion account spiritual diary or spiritual autobiography was the convert not God Using the theology of Jonathan Edwards as a key example Payne shows how Puritan piety encouraged the development of autobiographical spiritual narratives He goes on to explain the ways in which the discourse of conversion functioned apart from the control of the church and marked the growth of evangelicalism into a discursive community Finally he considers how the language of conversion functioned as a rhetorical space in which believers situated themselves individually within sacred space and time before turning back to society with a renewed regard for others Drawing throughout on the insights of such theorists as Michel Foucault and Victor Turner Payne s penetrating analysis reveals the early conversion accounts as mythic texts through which the modern self emerged The Author Rodger M Payne is associate

professor of religious studies at Louisiana State University He is editor in chief of The Journal of Southern Religion an electronic publication available on the World Wide Web *Eternal God / Saving Time* George Pattison, 2015-01-29 Starting from the assumption that time is the horizon of the meaning of Being Heidegger Eternal God Saving Time attempts to discover what the central religious idea of eternity or of God as the Eternal might mean today Negotiating ideas of divine timelessness and sempiternity everlastingness as well as the attempts of some philosophers to develop the idea of a temporal God Professor George Pattison surveys a range of positions from analytic philosophy and from the continental tradition from Spinoza through Hegel to the present Intellectual and cultural forces have tended to separate time and eternity and both philosophical and theological examples of this tendency are examined Nevertheless starting from the experience of life in time some modern thinkers have developed a new approach to the Eternal as what grounds or gives time This leads through ideas of novelty utopia hope promise and call to the projection of a creative and transformative memory remembering the future that affirms human solidarity and mutual responsibility Even if this cannot be made good in terms of knowledge it offers a basis for hope prayer and commitment and these options are explored through a range of Christian Jewish Greek and secular thinkers This development re envisages the idea of redemption away from the Augustinian view that time is what we need to be rescued from and towards the idea that time itself might save us from all that is destructive and tyrannical in time's rule over human life

Refashioning Myth David McInnis, Eric Parisot, Jessica Wilkinson, 2020-05-15 Robert Graves tells us that the poet's first enrichment is a knowledge and understanding of myths Certainly as this collection of essays poems and visual images affirms mythology has been a field richly mined by poets and artists from antiquity through to the present day It is testament to both the enduring power of myth as well as the adaptability of its form that poets and writers continually turn to the mythic for both inspiration and guidance This volume presents a diverse collection of analytical and creative works by scholars poets and visual artists in response to their varied explorations of the prolific dialogue that exists between myth and poetry

Eric Kaplan, 2015-10-27 In the hands of acclaimed comedy writer and philosophy scholar Eric Kaplan a search for the truth about Old Saint Nick becomes a deeply insightful laugh out loud discussion of the way some things exist but may not really be there just like Santa and his reindeer
