Lynton Keith Caldwell

The National Environmental Policy Act Cases Materials:

The National Environmental Policy Act Neil Orloff, George Brooks, 1980 *The National Environmental Policy Act* Matthew J. Ph. D. Lindstrom, Matthew J. Lindstrom, Zachary A. Smith, 2008-04-11 Environmental degradation and the compromised integrity of the earth's ecological system were growing public concerns in the mid to late 1960s. These issues spurred Congress to pass the National Environmental Policy Act of 1969 (NEPA), the first law to focus such environmental concerns into a comprehensive national policy. The new legislation encompassed an array of environmental values and ethics as well as administrative tools to achieve the ecological goals of the nation while taking into account other important societal needs. Though NEPA has had a positive effect on U.S. environmental policy and the national quality of life, this challenging new book shows how federal courts and agencies have failed to implement many of the values and goals fundamental to the success of NEPA. To explain this divergence, authors Matthew J. Lindstrom and Zachary A. Smith examine NEPA's origins, address how NEPA has been implemented and enforced, and highlight the shortcomings of its practice. Lindstrom and Smith strongly argue that if NEPA were fully and properly implemented, it would prove to be a valuable and realistic tool for balancing the needs of the world population and the protection of the earth's environment. They offer a new, hopeful look at how the law's structure can be properly utilized in order to give future generations hope of living on a sustainable planet. This book is well suited for audiences interested in public policy formation and implementation, especially environmental policy administrators, environmental historians, and those involved in environmental law, its policy, and its politics. **National Environmental Policy Act** United States. Congress. Senate. Committee on Public Works, 1972 National Environmental Policy Act Oversight United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Fisheries and Wildlife Conservation and the Environment, 1975 **The National Environmental Policy Act** Lynton Keith Caldwell, 1999-02-22 The National Environmental Policy Act has grown more, not less, important in the decades since its enactment. No one knows more about NEPA than Lynton Caldwell. And no one has a clearer vision of its relevance to our future. Highly recommended. David W. Orr, Oberlin College. What has been achieved since the National Environmental Policy Act was passed in 1969? This book points out where and how NEPA has affected national environmental policy and where and why its intent has been frustrated. The roles of Congress, the President, and the courts in the implementation of NEPA are analyzed. Professor Caldwell also looks at the conflicted state of public opinion regarding the environment and conjectures as to what must be done in order to develop a coherent and sustained policy. *Handbook on Procedures for Implementing the National Environmental Policy Act* United States. Office of Surface Mining Reclamation and Enforcement, 1981 Environmental Regulation of Real Property Nicholas A. Robinson, Kevin Reilly, 2024-04-28 This book not only offers in-depth analysis of federal environmental statutes having a bearing on land use but also looks closely at rules imposed by state and local governments. *National Environmental Policy Act*, 2023 Over 50 years since its passage, the National

Environmental Policy Act NEPA remains one of the most important centerpieces of U S environmental law and federal agency decision making The intent of NEPA rooted in aspirations of harmony between a person and their environment has evolved over a half a century resulting in an expanded environmental review process simultaneously lauded and condemned but undoubtedly complex For natural resource and environmental law practitioners a working understanding of NEPA s requirements and nuances has never been more critical In addition to a basic overview of NEPA this program explored advanced topics in NEPA procedures and policy including the 2020 Council on Environmental Quality regulations and proposed revisions by the Biden Administration Selected Materials on the Calvert Cliffs Decision, Its Origin and Aftermath United States.
