Resources in Education ,1981-07 The Nation's Rural Elderly United States. Congress. Senate. Special Committee on Aging,1977 **The American People** Reynolds Farley,John Haaga,2005-09-08 For more than 200 years America has turned to the decennial census to answer questions about itself More than a mere head count the census is the authoritative source of information on where people live the types of families they establish how they identify themselves the jobs they hold and much more The latest census taken at the cusp of the new millennium gathered more information than ever before about Americans and their lifestyles The American People edited by respected demographers Reynolds Farley and John Haaga provides a snapshot of those findings that is at once analytically rich and accessible to readers at all levels The American People addresses important questions about national life that census data are uniquely able to answer Mary Elizabeth Hughes and Angela O Rand compare the educational attainment economic achievement and family arrangements of the baby boom cohort with those of preceding generations David Cotter Joan Hermsen and Reeve Vanneman find that unlike progress made in previous decades the 1990s were a time of stability and possibly even retrenchment with regard to gender equality Sonya Tafoya Hans Johnson and Laura Hill examine a new development for the census in 2000 the decision to allow people to identify themselves by more than one race They discuss how people form multiracial identities and dissect the racial and ethnic composition of the roughly seven million Americans who chose more than one racial classification Former Census Bureau director Kenneth Prewitt discusses the importance of the census to democratic fairness and government efficiency and notes how the high stakes accompanying the census count especially the allocation of Congressional seats and federal funds have made the census a lightning rod for criticism from politicians The census has come a long way since 1790 when U S Marshals set out on horseback to count the population Today it holds a wealth of information about who we are where we live what we do and how much we have changed The American People provides a rich detailed examination of the trends that shape our lives and paints a comprehensive portrait of the country we live in today A Volume in the Russell Sage Foundation Census Series **Comparative Sociological Research in the 1960s and 1970s** Armer,Marsh,2022-03-28 **Rental Accommodations Act of 1975 (Council Act No. 1-46)** United States. Congress. House. Committee on the District of Columbia. Subcommittee on Commerce, Housing, and Transportation,1975 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Growing Up Protestant** Margaret Lamberts Bendroth,2002 Home and family are key yet relatively unexplored dimensions of religion in the contemporary United States American cultural lore is replete with images of saintly nineteenth century American mothers and their children During the twentieth century however the form and function of the American family have changed radically and religious beliefs have evolved under the challenges of modernity As these transformations took place how did religion manage to fit into modern family life In this book Margaret Lamberts Bendroth examines the lives and beliefs of white middle class mainline Protestants

principally northern Presbyterians Baptists Methodists and Congregationalists who are theologically moderate or liberal Mainliners have pursued family issues for most of the twentieth century churning out hundreds of works on Christian childrearing Bendroth's book explores the role of family within a religious tradition that sees itself as America's cultural center In this balanced analysis the author traces the evolution of mainliners' roles in middle class American culture and sharpens our awareness of the ways in which the mainline Protestant experience has actually shaped and reflected the American sense of self Foreign assistance and related programs appropriations for 1983 United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations and Related Agencies (1981-1987), United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations and Related Programs, 1982

Role-sharing Marriage Audrey D. Smith, William James Reid, 1986 *All in the Family* Robert O. Self, 2012-09-18 This text is a synthetic history of the last half of the American century Self shows how movements on the liberal left that demanded equal rights and greater government protection inadvertently elicited conservative activism that sought to restore the nuclear family under the rubric of family values
