The Near Eastern Policy of the Emperor Napoleon III. Alyce Edythe Mange, 1968 *The Near Eastern Policy of the Emperor Napoleon III.* Alyce Edythe Mange, 1968 **The Near Eastern Policy of the Emperor Napoleon III /** Alyce Edythe Mange, 1975

An Occasion for War Leila Tarazi Fawaz, 1994-01-01 Leila Fawaz's pioneering study tells the story of the 1860 civil wars that began in Mount Lebanon and spilled over into Damascus. This period witnessed the most severe outbreak of sectarian violence in the history of Ottoman Syria and Lebanon. The author's close analytical narrative of the dramatic events of that year is set against the broader themes of nineteenth century social, political and economic change. Fawaz shows how social conflict, including ethnic civil wars, cannot be explained without analyzing the regional and international currents that play upon both central state power and local autonomy. She also demonstrates the important role of the communal balance between social and political institutions within regions. Fawaz's new insights into the formation of sectarian identities and conflict will make *An Occasion for War* essential reading for all students of the modern Middle East.

The Crimean War Winfried Baumgart, 2020-01-09 Winfried Baumgart's masterful history of the Crimean War has been expanded and fully updated to reflect advances made in the field since the book's first publication. It convincingly argues that if the war had continued after 1856, the First World War would have taken place 60 years earlier, but that fighting ultimately ceased because diplomacy never lost its control over the use of war as an instrument in power politics. With 19 images, 13 maps and additional tables, as well as a brand new chapter on the medical services, this expanded and fully updated 2nd edition explores the origins and diplomacy of the Crimean War, the war aims and general attitudes of the belligerent powers: Russia, France and Britain, non-belligerent German powers, Austria and Prussia, and a selected number of neutral powers including the United States. The characteristics and capabilities of the armies involved, the nature of the fighting itself, the Crimean War 1853-1856, examines the conflict in both its Europe-wide and global contexts, moving beyond the five great European powers to consider the role and importance of smaller states and theatres of war that have otherwise been underserved. To this end, it looks at fighting on the Danube front, the Black Sea, the Baltic Sea, the Caucasian battlefield, as well as the White Sea and the Pacific, with final chapters devoted to the Paris peace congress of 1856, the end of the war and its legacy. This book remains the definitive study of one of the most important wars in modern history. **Origins of Modern**

Europe; Medieval National Consciousness Abida Shakoor, 2004 This book covers various topics concerning modern European history. In spite of the author's artistically simple writing style, the treatment given to various topics is in-depth and scholarly. Besides the incidents and episodes, addressing important historical figures, movements, struggles, dreams and aspirations of common man are also highlighted in this book. All the events dealt with are in fact forming a sequence targeting towards contemporary socio-political scenarios. The present book would be of great use to research scholars, students and teachers interested in European history. It would definitely fill the gap in the literature.

Concerning Modern Europe Illinois Studies in the Social Sciences University of Illinois (Urbana-Champaign campus), 1946 *The Routledge Handbook of the Crimean War* Candan Badem, 2021-09-14 The Routledge Handbook of the Crimean War is an edited collection of articles on the various aspects of the Crimean War written by distinguished historians from various countries Part I focuses on diplomatic military and regional perspectives Part II includes contributions on social cultural and international issues around the war All contributions are based upon findings of the latest research While not pretending to be an exhaustive encyclopaedia of this first modern war the present volume captures the most important topics and the least researched areas in the historiography of the war The book incorporates new approaches in national historiographies to the war and is intended to be the most up to date reference book on the subject Chapters are devoted to each of the belligerent powers and to other peripheral states that were involved in one way or another in the war The volume also gives more attention to the Ottoman Empire which is generally neglected in European books on the war Both the general public and students of history will find the book useful balanced and up to date A View from Jerusalem, 1849-1858 James Finn, Elizabeth Anne McCaul Finn, Arnold Blumberg, 1980 **Against Massacre** Davide Rodogno, 2011-11-07 Against Massacre looks at the rise of humanitarian intervention in the nineteenth century from the fall of Napoleon to the First World War Examining the concept from a historical perspective Davide Rodogno explores the understudied cases of European interventions and noninterventions in the Ottoman Empire and brings a new view to this international practice for the contemporary era While it is commonly believed that humanitarian interventions are a fairly recent development Rodogno demonstrates that almost two centuries ago an international community under the aegis of certain European powers claimed a moral and political right to intervene in other states affairs to save strangers from massacre atrocity or extermination On some occasions these powers acted to protect fellow Christians when allegedly uncivilized states like the Ottoman Empire violated a right to life Exploring the political legal and moral status as well as European perceptions of the Ottoman Empire Rodogno investigates the reasons that were put forward to exclude the Ottomans from the so called Family of Nations He considers the claims and mixed motives of intervening states for aiding humanity the relationship between public outcry and state action or inaction and the bias and selectiveness of governments and campaigners An original account of humanitarian interventions some two centuries ago Against Massacre investigates the varied consequences of European involvement in the Ottoman Empire and the lessons that can be learned for similar actions today
