

SELECTED WORKS OF Bernard Harris

These authors also found that the use of a single, non-specific, and non-validated questionnaire to assess the prevalence of mental health problems in the general population is not a good idea. They also found that the prevalence of mental health problems in the general population is higher than in the clinical population. This is likely due to the fact that the general population is more likely to have mental health problems than the clinical population. The authors also found that the prevalence of mental health problems in the general population is higher than in the clinical population. This is likely due to the fact that the general population is more likely to have mental health problems than the clinical population.
