The Never Realized Republic :

The New Republic Herbert David Croly,1920 **Millionaire Republican** Wayne Allyn Root,2006-09-14 America s leading professional prognosticator and a successful Millionaire Republican himself reveals the eighteen keys to creating wealth in the GOP dominated era **Belonging: the Civil War'S South We Never Knew** Derek B. Hankerson,Judith Y. Shearer,2015-07-29 G A Henry defended a slave in court but years later he fought for the Confederacy The question is why Continuing the creative nonfiction narrative she began in her first book All Bones Be White Judith Shearer whose family owned slaves teams up with Derek Boyd Hankerson some of whose family were slaves to reveal Henrys motivations in the second part of an action packed trilogy In the book youll learn why some blacks fought for the South during the Civil War how DNA testing is helping uncover new information about the past and the black experience in the Southern states leading up to our nations deadliest war More importantly youll find out what happened to Cassy the Kentucky slave who was put on trial for allegedly killing a white woman Henry did his best to save her life but what happened would change the course of his life Delve into an important story thats been forgotten for too long and gain a clearer picture of what the South was like for blacks before and during the nations split with **Belonging The Civil Wars South We Never Knew** **The Last Lincoln Republican** Benjamin T. Arrington,2023-06-16 Of all the great what if scenarios in American history the aftermath of the presidential election of 1880 stands out as one of the most tantalizing The end of the Civil War and the assassination of Abraham Lincoln had thrown the future of Lincoln s vision for the country into considerable doubt the years that followed marked by impeachment constitutional change presidential scandals and the contested election of 1876 saw Republicans fighting to retain power as they transitioned into the party of big business Enter James A Garfield a seasoned politician known for his advocacy of civil rights who represented the last potential Reconstruction presidency truly Benjamin T Arrington suggests in this book the last Lincoln Republican The story of the presidential election of 1880 fully explored for the first time in **The Last Lincoln Republican** is a political drama of lasting consequence and dashed possibilities A fierce opponent of slavery before the war Garfield had fought for civil rights for African Americans for years in Congress Holding true to the original values of the Republican Party Garfield wanted to promote equal opportunity for all meanwhile Democrats led by Winfield Scott Hancock sought to return the South to white supremacy and an inferior status for African Americans With its in depth account of the personalities and issues at play in 1880 Arrington s book provides a unique perspective on how this critical election continues to resonate through our national politics and culture to this day A close look at the contest of 1880 reveals that Garfield s victory could have been the start of a period of greater civil rights legislation a continuation of Lincoln s vision This was the choice made by the American people and as **The Last Lincoln Republican** makes poignantly clear the great opportunity forever lost when Garfield was assassinated just a few months into his term **Cases Decided in the Court of Claims of the United States ...** United States. Court of Claims,1901

Republics at War, 1776-1840 P. Serna, A. De Francesco, J. Miller, 2013-10-11 This collection probes the troubling connections between war and republic during Revolutionary era 1776-1840. It presents the work of an international team of scholars, some of them in English for the first time. *The Hitler Youth* H. W. Koch, 2000-08-08 A former member of the Hitlerjugend, the author offers a rare look at the emergence, structure, and history of this totalitarian Nazi organization.

Republic, 1874 **The Remaking of Republican Turkey** Nicholas Danforth, 2021-06-24 Between 1945 and 1960 the birth of a multi-party democracy and NATO membership radically transformed Turkey's foreign relations and domestic politics. As Turkish politicians, intellectuals, and voters rethought their country's relationship with its past and its future to facilitate democratization, a new alliance with the United States was formed. In this book, Nicholas L. Danforth demonstrates how these transformations helped consolidate a consensus on the nature of Turkish modernity that continues to shape current political and cultural debates. He reveals the surprisingly nuanced and often paradoxical ways that both secular modernizers and their Islamist critics deployed Turkey's famous clichés about East and West, as well as tradition and modernity, to advance their agendas. By drawing on a diverse array of published and archival sources, Danforth offers a tour de force exploration of the relationship between democracy, diplomacy, modernity, Westernization, Ottoman historiography, and religion in mid-century Turkey.
