The New Insurgencies Anticommunist Guerrillas In The Third World

Zachariah Cherian Mampilly

The New Insurgencies Anticomunist Guerrillas In The Third World:

The New Insurgencies Michael Radu, 2017-09-29 The appearance of ideologically motivated anti communist insurgent groups in the Third World is an important new phenomenon that has received little serious attention Analysis has focused on American attitudes while the indigenous roots and motivations of such groups have remained largely unexplored Michael Radu fills in the gap in *The New Insurgencies* with case studies and contributions from Anthony Arnold Paul Henze Justus van de Kroef and Jack Wheeler As the authors show more often than not Third World anti communist insurgencies express a general rejection of values and ideologies from outsiders Many of these insurgencies reflect violent opposition to regimes installed by the Soviets during the 1970s yet they only rarely articulate a struggle for liberal democracy Nationalism religion or the preservation of traditional political and economic patterns are more often the true motivations And while insurgents often apply military and occasionally political methods used by successful Marxist Leninist insurgencies of this century they tend to be rural based and close to the aspirations of the peasant masses rather than directed by the educated and urbanized elites *The New Insurgencies* includes case studies of major anti communist movements today including those in Afghanistan Cambodia Ethiopia Mozambique Angola and Nicaragua It shows that in each the role of local powers such as South Africa Thailand and Pakistan rather than direct U S support has been critical to the insurgents effectiveness In part this may be because the old bipartisan Washington consensus based on anti communism has evaporated and Radu explores why this has occurred Regardless of Washington s support the new insurgencies are likely to persist Their impact on U S Soviet and world policy will be profound *The New Insurgencies* combines extensive use of firsthand data including personal knowledge of some of the major personalities involved with extensive bibliogra

Foreign Intervention, Warfare and Civil Wars Adam Lockyer, 2017-09-01 This book examines the impact of foreign intervention in the course and nature of warfare in civil wars Throughout history foreign intervention in civil wars has been the rule rather than the exception The involvement of outside powers can have a dramatic impact on the course and nature of internal conflicts Despite this there has been little research which has sought to explain how foreign intervention influences the course of civil wars This book seeks to rectify this gap It examines the impact of foreign intervention on the warfare that characterises civil wars through by studying the cases of the Angolan and Afghan civil wars It investigates how foreign resources affect the military power of the recipient belligerent and examines how changes in the balance of capabilities influence the form of warfare that characterises a civil war Warfare in civil wars is often highly fluid with belligerents adapting their respective strategies in response to shifts in the balance of military capabilities This book shows how the intervention of foreign powers can manipulate the balance of capabilities between the civil war belligerents and change the dominant form of warfare The findings presented in this book offer key insights for policy makers to navigate the increasing internationalization of civil wars around the globe This book will be of much interest to students of civil wars intra state conflict war and conflict studies and security studies

Deciding to

Intervene James M. Scott, 1996 Using a comparative case study method Scott examines the historical intellectual and ideological origins of the Reagan Doctrine as it was applied to Afghanistan Angola Cambodia Nicaragua Mozambique and Ethiopia Scott draws on many previously unavailable government documents and a wide range of primary material to show both how this policy in particular and American foreign policy in general emerges from the complex shifting interactions between the White House Congress bureaucratic agencies and groups and individuals from the private sector **Rebel Rulers** Zachariah Cherian Mampilly, 2012-03-27 When insurgents take and hold territory they can develop systems of governance that deliver public services to civilians under their control This book reflects Zachariah Cherian Mampilly's extensive fieldwork in rebel controlled areas Historical Dictionary of Angola W. Martin James, 2018-03-01 Angola slowly recovering from a twenty seven year civil war is becoming a regional super power in southern Africa This rise can be attributed to oil diamonds a battle tested armed forces and a political system that is dominated by one party the Movimento Popular de Liberta o de Angola the Popular Movement for the Liberation of Angola MPLA Problems remain to be solved The vast wealth is in the control of the elite while the vast majority of the people live on less than two dollars per day Corruption is rife the health and education system in shambles landmines remain a festering problem and the opposition is intimidated and split into various factions President Eduardo dos Santos who has ruled Angola for almost thirty eight years has opted not to run for re election in the August 2017 elections Instead his hand picked successor Jo o Louren o was elected president Interestingly dos Santos has not surrendered his presidency of the party This third edition of Historical Dictionary of Angola contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Angola **Historical Dictionary of Eritrea** Dan Connell, Tom Killion, 2010-10-14 The history of Eritrea is told in this reference through a chronology an introductory essay a bibliography and over 500 cross referenced dictionary entries on significant persons events places organizations and other aspects of Eritrea's history from the earliest times to the present This book is an excellent access point for students researchers and anyone wanting to know more about Eritrea Apartheid's Contras William Minter, 1994 It also outlines a new kind of Third World warfare neither classic guerrilla warfare nor straightforward external aggression instead one comprising elements of civil war but dominated by the initiatives of external powers *Foreign Fighters and Multinational Armies* Steven O'Connor, Guillaume Piketty, 2022-05-11 This book showcases new historical research on foreign soldiers including an overview of the early modern period and numerous case studies which cover the last 175 years and stretch over 5 continents The last two decades have seen the term foreign fighter enter our everyday vocabulary The insurgencies in Afghanistan and Iraq the Syrian Civil War and the rise and fall of the Islamic State group have sparked public interest in the phenomenon of people choosing to leave their own country and fight in a foreign conflict Foreign fighters their origins

motives activities and potential danger to their home countries have become subjects of debate attracting contributions from politicians military personnel the media political scientists legal scholars but to a much lesser extent from historians The ten essays in this volume showcase new historical research on foreign military labour The aim of the volume is to better understand the experiences and challenges faced by both the foreigners and the host country particularly its armed forces and to highlight the significance of these trends to the contemporary debate on foreign fighters The chapters in this book were originally published as a special issue of the journal *European Review of History* **U.S. Policy Toward**

Anti-Communist Insurgencies United States. Congress. Senate. Committee on Appropriations. Subcommittee on Foreign Operations, 1985 **Organizations at War in Afghanistan and Beyond** Abdulkader H. Sinno, 2011-01-15 After we had

exchanged the requisite formalities over tea in his camp on the southern edge of Kabul's outer defense perimeter the Afghan field commander told me that two of his bravest mujahideen were martyred because he did not have a pickup truck to take them to a Peshawar hospital They had succumbed to their battle wounds He asked me to tell his party's bureaucrats across the border that he needed such a vehicle desperately I double checked with my interpreter that he was indeed making this request I wasn't puzzled because the request appeared unreasonable but because he was asking me a twenty year old employee of a humanitarian organization to intercede on his behalf with his own organization's bureaucracy I understood on this dry summer day in Khurd Kabul that not all militant and political organizations are alike from *Organizations at War in Afghanistan and Beyond* While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology social scientific analyses of these wars focus on aggregate categories such as ethnic groups religious affiliations socioeconomic classes or civilizations Challenging these constructions Abdulkader H Sinno closely examines the fortunes of the various factions in Afghanistan including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion Focusing on the organization of the combatants Sinno offers a new understanding of the course and outcome of such conflicts Employing a wide range of sources including his own fieldwork in Afghanistan and statistical data on conflicts across the region Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization Each organization's ability to mobilize effectively execute strategy coordinate efforts manage disunity and process information depends on how well its structure matches its ability to keep its rivals at bay Centralized organizations Sinno finds are generally more effective than noncentralized ones but noncentralized ones are more resilient absent a safe haven Sinno's organizational theory explains otherwise puzzling behavior found in group conflicts the longevity of unpopular regimes the demise of popular movements and efforts of those who share a common cause to undermine their ideological or ethnic kin The author argues that the organizational theory applies not only to Afghanistan where he doubts the effectiveness of American state building efforts but also to other ethnic revolutionary independence and secessionist conflicts in North

Africa the Middle East and beyond

Whispering the Techniques of Language: An Mental Journey through **The New Insurgencies Anticomunist Guerrillas In The Third World**

In a digitally-driven world where monitors reign great and quick interaction drowns out the subtleties of language, the profound strategies and emotional subtleties concealed within phrases often get unheard.
