Harmattan Michael D. Jackson, 2015-04-21 We all experience qualms and anxieties when we move from the known to the unknown Though our fulfillment in life may depend on testing limits our faintheartedness is a reminder of our need for security and our awareness of the risks of venturing into alien worlds Evoking the hot dust filled Harmattan winds that blow from the Sahara to the Gulf of Guinea this book creatively explores what it means to be buffeted by the unforeseen and the unknown Celebrating the life giving potential of people places and powers that lie beyond our established worlds Harmattan connects existential vitality to the act of resisting prescribed customs and questioning received notions of truth At the book's heart is the fictional story of Tom Lannon a graduate student from Cambridge University who remains ambivalent about

pursuing a conventional life After traveling to Sierra Leone in the aftermath of its devastating civil war Tom meets a writer who helps him explore the possibilities of renewal Illustrating the fact that certain aspects of human existence are common to all people regardless of culture and history Harmattan remakes the distinction between home and world and the relationship between knowledge and life

Shimmering Images Eliza Steinbock,2019-02-14 In *Shimmering Images* Eliza Steinbock traces how cinema offers alternative ways to understand gender transitions through a specific aesthetics of change Drawing on Barthes s idea of the shimmer and Foucault s notion of sex as a mirage the author shows how sex and gender can appear mirage like on film an effect they label shimmering Steinbock applies the concept of shimmering which delineates change in its emergent form as well as the qualities of transforming bodies images and affects to analyses of films that span time and genre These include examinations of the fantastic and phantasmagorical shimmerings of sex change in Georges M li s nineteenth century trick films and Lili Elbe s 1931 autobiographical writings and photomontage in *Man into Woman* Steinbock also explores more recent documentaries science fiction and pornographic and experimental films Presenting a cinematic philosophy of transgender embodiment that demonstrates how shimmering images mediate transitioning Steinbock not only offers a corrective to the gender binary orientation of feminist film theory they open up new means to understand trans ontologies and epistemologies as emergent affective and processual

The Greatest Lie on Earth Edward Hendrie,2016-01-17 This book reveals the mother of all conspiracies It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it
