The Health of America's Children Dana Hughes,1988-01-01 Maternal and Child Health Data Book Dana Hughes,1986

This databook describes the status of maternal and child health in America the nation s progress in reducing infant mortality low birthweight babies and the percentage of pregnant women who receive late or no prenatal care patterns of teenage and out of wedlock childbearing and the extent to which certain safety net programs such as Aid to Families with Dependent Children Medicaid and the Women Infants and Children Supplemental Food Program are meeting the needs of the poorest women and children Data for the years 1978 1983 are based on published and unpublished statistics from the National Center for Health Statistics All 1984 data are based on published and unpublished data from 40 state vital statistics offices After an overview of findings Part 1 focuses on national findings and Part 2 reports highlights of state findings Included in Part 2 are tables ranking states on their problems and programmatic responses as well as the Surgeon General s 1990 Objectives Maps which indicate states progress toward meeting established goals Approximately half of the databook consists of state fact sheets Related tables and technical notes are appended RH **America's Children** ,2000

America's Children: Key National Indicators of Well-Being 2003, * ,2003 This is the seventh report in an annual review series providing a compendium of indicators illustrative of both the promises and the difficulties confronting our Nations young people The report presents 25 key indicators on important aspects of children s lives It also presents data on nine contextual measures that describe changes in the characteristics of the population as well as in children s family settings and living arrangements *The Health of America's Children* Sara Rosenbaum,Christine Layton,Joseph Liu,1991

America's Children Federal Interagency Forum on Child and Family Statistics (U.S.),2003 **National Health Care** Jonathan Lemco,1994 A valuable contribution to the health care debate **Measuring and Monitoring Children's Well-Being** Asher Ben-Arieh,Natalie Hevener Kaufman,Arlene Bowers Andrews,Robert M. George,Bong Joo Lee,L. J. Aber,2013-03-09 Today any regular newspaper reader is likely to be exposed to reports on manifold forms of physical emotional sexual child abuse on the one hand and abnormal behavior misconduct or offences of children and minors on the other hand Occasionally reports on children as victims and children as offenders may appear on the same issue or even the same page Rather seldom the more complex and largely hidden phenomena of structural hostility or indifference of society with a view to children are being dealt with in the press Such fragmentary ambiguous incoherent or even contradictory perception of children in modern society indicates that firstly there is a lack of reliable information on modern childhood and secondly children are still treated as a comparatively irrelevant population group in society This conclusion may be surprising in particular when drawn at the end of The Century of the Child proclaimed by Ellen Key as early as 1902 Actually there exist unclarities and ambiguities about the evolution of childhood in the last century not only in public opinion but also in scientific literature While De Mause with his psycho historic model of the evolution of childhood comprising different

stages from infanticide abandonment ambivalence intrusion socialisation to support underlines the continuous improvement of the condition of childhood throughout history and thus rather confirms Key's expectations. Aries with his social history of childhood seems to hold a more culturally pessimistic view.

America's Children: Key National Indicators of Well-Being (2011) Traci Cook, 2011-07-21 The Interagency Forum on Child and Family Statistics develops priorities for collecting data on children and youth improve the reporting and dissemination of information on the status of children to the policy community and the general public and produce more complete data on children at the State and local levels. This report presents key indicators grouped in seven sections: family and social environment, economic circumstances, health care, physical environment and safety, behavior, education and health. In addition, this year's report includes a new indicator on teen immunizations that will allow the tracking of newly recommended adolescent vaccines. Extensive charts, tables, and graphs. A print-on-demand report.

America's Children Institute of Medicine and National Research Council, Institute of Medicine, Committee on Children, Health Insurance, and Access to Care, 1998-11-27. America's Children is a comprehensive, easy-to-read analysis of the relationship between health insurance and access to care. The book addresses three broad questions: How is children's health care currently financed? Does insurance equal access to care? How should the nation address the health needs of this vulnerable population? America's Children explores the changing role of Medicaid under managed care, state-initiated and private sector children's insurance programs, specific effects of insurance status on the care children receive, and the impact of chronic medical conditions and special health care needs. It also examines the status of safety-net health providers, including community health centers, children's hospitals, school-based health centers, and others, and reviews the changing patterns of coverage and tax policy options to increase coverage of private sector employer-based health insurance. In response to growing public concerns about uninsured children, last year Congress voted to provide \$24 billion over five years for new state insurance initiatives. This volume will serve as a primer for concerned federal policymakers and regulators, state agency officials, health plan decisionmakers, health care providers, children's health advocates, and researchers.
