The Mystical Element In The Metaphysical Poets Of The 17th Century:

The Mystical Element in the Metaphysical Poets of the Seventeenth Century Itrat Husain, 1966 ~*Theæ Mystical Element in the Metaphysical Poets of the Seventeenth Century* Itrat Husain Zuberi, 1966 Thomas Traherne and Seventeenth-century Thought Elizabeth S. Dodd, Cassandra Gorman, 2016 New essays on Thomas Traherne challenge traditional critical readings of the poet **The Voluble Soul** Richard Willmott, 2021-06-24 The world's fair beauty set my soul on fire In this first study of the full range of Traherne's poetry Richard Willmott explains his metaphysical poetry to all who are attracted by the beauty of his language but puzzled by his meaning He offers guidance both for the student of English uncertain about Traherne's theological ideas and the student of theology put off by seventeenth century poetic conventions and diction Using a wealth of quotation he examines Traherne's verse alongside that of a variety of his contemporaries including Andrew Marvell Lucy Hutchinson Anne Bradstreet and Edward Taylor Central to Traherne's poetry and generous theology is his delight in the capacity of his soul to approach God through an appreciation of His infinite creation This soul is voluble not only because it can express its thoughts with fluency but also because it can enfold within itself the infinity of God's creation taking in everything that it perceives considering the latest scientific speculations about the atom and astronomy but also looking clear sightedly at Restoration society's materialism and in one startlingly savage satire the corruption of the royal court **The New Cambridge Bibliography of English Literature** George Watson, Ian Roy Willison, 1974 **Metaphysical and Mid-Late Tang Poetry: A Baroque Comparison** Pengfei Wang, 2020-03-05 Wishing to expand on the minimal scholarship on the topic of Metaphysical and Mid Late Tang poets under the general category of Baroque this book offers a comparative analysis of poems from the Metaphysical poets John Donne Andrew Marvell and Richard Crashaw and a selection of Tang poetry by Meng Jiao Li He and Li Shangyin By following Nietzsche's definition of Baroque as a poetic style found in any period and country and the concept of art as allegory the author approaches the analysis of these poems using allegorical reading The application of this non traditional method of investigation and analysis has produced ground breaking implications in the area of literary criticism paving the way for future additions to the growing body of work on Baroque poetry Therefore it is likely to hold great appeal to literature researchers and scholars as well as those studying Tang poetry Metaphysical poetry and Comparative Studies *The Shadow of Eternity* Sharon C. Seelig, 2021-12-14 The poetry of Herbert Vaughan and Traherne represents an attempt to shape their lives and verse around the fact of divine presence and influence writes Sharon Seelig The relationship between belief and expression in these three metaphysical poets is the subject of this deeply perceptive study Each of these poets held to some extent the notion of dual reality of the world as indicative of a higher reality but their responses to this tradition vary greatly from the ongoing struggle between God and the poet of The Temple which finally transforms the materials of everyday life and worship to the more difficult unity of Silex Scintillans with its tension between illumination and resignation

to the ecstatic proclamations of Thomas Traherne whose sense of divine reality at first seems so strong as to destroy the characteristic metaphysical tension between this world and the next Seelig's study proceeds from individual poems to the whole work exploring the relation of cosmology and religious experience to poetic form Henry Vaughan Jonathan F.S. Post, 2014-07-14 Combining historical scholarship and intertextual criticism this study reassesses Henry Vaughan's entire literary career with particular reference to his relationship to George Herbert Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Mystical Element in the Metaphysical Poets of the Seventeenth Century, by Itrat-Husain,...
