The Nabis And Their Period:

The Nabis & Their Period Charles Chassé, 1969 **The Prophets: The Babylonian and Persian periods** Klaus Koch, 1969
The great virtue of Koch's work is his attempt to describe the world view presupposed by the prophets as they evaluated their societies and formulated their messages. In this respect his treatment is a valuable contribution to our understanding of the Hebrew prophets.
Thomas W Overholt, Catholic Biblical Quarterly *The Nabis* Albert Kostenevitch, 2014-05-10
Pierre Bonnard was the leader of the group of post impressionist painters who called themselves the Nabis from the Hebrew word for prophet. Influenced by Odilon Redon, Puvis de Chavannes' popular imagery and Japanese woodblock printing, Bonnard, Vuillard, Vallotton and Denis, to name the most prominent members, revolutionised the spirit of decorative technique during one of the richest periods in French painting. Although the increasing individualism of their works often threatened to weaken their unity, the Nabis were above all a group of close friends. The artwork presented in this book, varying between Bonnard's guilelessness, Vuillard's ornamental and mysterious works, Denis's soft languor and Vallotton's almost bitter roughness, plunges us into the deep source of their creative talents.
The Nabis and Intimate Modernism Katherine M. Kuenzli, 2017-07-05
Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters, this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism. Over the course of the ten years that define the Nabi movement (1890-1900), its principal artists included Edouard Vuillard, Pierre Bonnard, Maurice Denis, Paul Signac and Paul Ranson. The author reconstructs the Nabis relationship to Impressionism, mass culture, literary Symbolism, Art Nouveau, Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900. She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting: issues such as the relationship of high and low art, of individual sensibility and collective identity of the public and private spheres. *The Nabis and Intimate Modernism* is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism. The book ends up not only repositioning the Nabis to occupy a crucial place in modernism's development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration, totality and interiority.
Bonnard and the Nabis Albert Kostenevitch, 2012-05-08
Pierre Bonnard was the leader of a group of post impressionist painters who called themselves the Nabis from the Hebrew word meaning prophet. Bonnard, Vuillard, Roussel and Denis, the most distinguished of the Nabis, revolutionized the spirit of decorative techniques during one of the richest periods in the history of French painting. Influenced by Odilon Redon and Puvis de Chavanne by popular imagery and Japanese etchings, this post impressionist group was above all a close circle of friends who shared the same cultural background and interests. An increasing individualism in their art often threatened the group's unity and although tied together by a common philosophy, their work clearly diverged.

This publication lets us compare and put into perspective the artists within this fascinating group. The works presented in this collection offer a palette of extraordinary poetic expressions: candid in Bonnard, ornamental and mysterious in Vuillard, gently dream like in Denis, grim and almost bitter in Vallotton. The author shares with us the lives of these artists to the very source of their creative gifts.

The Nabis Yoav Israel Spicehandler, 1975

The Symbolist Movement in the Literature of European Languages Anna Balakian, 1984-01-01 Edited by Anna Balakian, this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages. The scope of these analyses, which explore Latin America, Scandinavia, Russia, Poland, Hungary, Serbia, Czechoslovakia and Bulgaria as well as West European literatures, continues to make the volume a valuable reference today. As Ren Wellek suggests in his historiographic contribution, the fifty-one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts. Reviewers comment that this copious and intelligently structured anthology, divided into eight parts, traces the conceptual bases and emergence of an international Symbolist movement, showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends. Several chapters deal with the relationships between literature and the other arts, pointing to Symbolism at work in painting, music and theatre. Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words. The volume is a major contribution to the most significant exponents and essential themes of Symbolism. The theoretical, historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today.

[The 20th Century A-G](#) Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

[The Norton Dictionary of Modern Thought](#) Alan Bullock, Stephen Trombly, 1999 Nearly four thousand entries cover terms in all disciplines contributed by experts in each field with suggestions for further reading.
