

DEATH IN THE CLOUDS AND BLOOD IN THE SKY

THE NAVAL AIR WAR IN VIETNAM

BY PETER B. MERSKY & NORMAN POLMAR

The Naval Air War In Viet Nam

Norman Polmar, Edward J. Marolda

The Naval Air War In Viet Nam:

On Yankee Station John B. Nichols, 2013-03-11 Combining vivid personal narrative with historical and operational analyses this book takes a candid look at U S naval airpower in the Vietnam War Coauthors John Nichols a fighter pilot in the war and Barrett Tillman an award winning aviation historian make full use of their extensive knowledge of the subject to detail the ways in which airpower was employed in the years prior to the fall of Saigon Confronting the conventional belief that airpower failed in Vietnam they show that when applied correctly airpower was effective but because it was often misunderstood and misapplied the end results were catastrophic Their book offers a compelling view of what it was like to fly from Yankee Station between 1964 and 1973 and important lessons for future conflicts At the same time it adds important facts to the permanent war record Following an analysis of the state of carrier aviation in 1964 and a definition of the rules of engagement it describes the tactics used in strike warfare the airborne and surface threats electronic countermeasures and search and rescue It also examines the influence of political decisions on the conduct of the war and the changing nature of the Communist opposition Appendixes provide useful statistical data on carrier deployments combat sorties and aircraft losses

The Naval Air War in Vietnam Peter B. Mersky, Norman Polmar, 1986 Provides a detailed account of naval aviation in Vietnam including personal stories of pilots

Naval Air War U. S. Department Navy, 2016-10-28 Naval Air War The Rolling Thunder Campaign is the sixth monograph in the series The U S Navy and the Vietnam War It covers aircraft carrier activity during one of the longest sustained aerial bombing campaigns in history And it would be a failure The U S Navy proved essential to the conduct of Rolling Thunder and by capitalizing on the inherent flexibility and mobility of naval forces the Seventh Fleet operated with impunity for three years off the coast of North Vietnam The success with which the Navy executed the later Operation Linebacker campaign against North Vietnam in 1972 revealed how much the service had learned from and exploited the Rolling Thunder experience of 1965 1968

On Yankee Station John B. Nichols, 1987

Air Power and the Ground War in Vietnam Donald J. Mrozek, 2002 Dr Donald J Mrozek's research sheds considerable light on how the use of air power evolved in the Vietnam War Much more than simply retelling events Mrozek analyzes how history politics technology and the complexity of the war drove the application of air power in a long and divisive struggle Mrozek delves into a wealth of original documentation and his scholarship is impeccable His analysis is thorough and balanced His conclusions are well reasoned but will trouble those who have never seriously considered how the application of air power is influenced by factors far beyond the battlefield Whether or not the reader agrees with Mrozek the quality of his research and analysis makes his conclusions impossible to ignore John C Fryer Jr Brigadier General United States Air Force Commander Center for Aerospace Doctrine Research and Education

Naval Air War Norman Polmar, Edward J. Marolda, 2015

Tactical Air Power and the Vietnam War Phil Haun, 2024-01-18 A theory of tactical air power explaining US air power effectiveness in Vietnam and the modern air wars that followed

Afterburner John Darrell Sherwood, 2004-05-31 Military

history looking at aviators during the second half of Vietnam The stories are told through interviews and journal excerpts of the pilots and aircrew themselves Great tradey title **Air War Vietnam** Martin W. Bowman,2025-08-05 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman s revealing narrative of the aerial conflict in South East Asia 1965-1972 which had its beginnings in 1 November 1955 engulfed Vi tnam Laos and Cambodia and only ended with the fall of S ig n on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vi tnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vi tnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vi tnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked So too is the cost in human misery death and destruction **Air Power's Lost Cause** Brian D. Laslie,2021-05-14 The first comprehensive treatment of the air wars in Vietnam Filling a substantial void in our understanding of the history of airpower in Vietnam this book provides the first comprehensive treatment of the air wars in Vietnam Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal Detailing the competing roles and actions of the air elements of the United States Army Navy and Air Force the author considers the strategic operational and tactical levels of war He also looks at the air war from the perspective of the North Vietnamese Air Force Most important for understanding the US defeat Laslie illustrates the perils of a nation building a one dimensional fighting force capable of supporting only one type of war
