associated with travel and tourism from the seventeenth century when the showman and his peepshow box would take the
village crowd to places cities and lands through the power of stories to today when we rely on a different range of boxes to
whisk us away on our imaginative travels the television the cinema and the computer Even simply the notion of travel it
would seem gives us license to daydream The imagination thus becomes a key concept that blurs the boundaries between our
everyday lives and the idea of travel Yet despite what appears to be a close and comfortable link there is an absence of
scholarly material looking at travel and the imagination Bringing together geographers sociologists cultural researchers
philosophers anthropologists visual researchers archaeologists heritage researchers literary scholars and creative writers

this edited collection explores the socio cultural phenomenon of imagination and travel The volume reflects upon imagination in the context of many forms of physical and non physical travel inviting scholars to explore this fascinating yet complex area of inquiry in all of its wonderful colour slipperiness mystery and intrigue The book intends to provide a catalyst for thinking discussion research and writing with the vision of generating a cannon of scholarship on travel and the imagination that is currently absent from the literature **Publisher and Bookseller** ,1905 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series
