Alexandra Morton, 1993 Follows a killer whale from her birth off the west coast of Canada through her first year of life

Beyond the Whales Alexandra Morton, 2004 Through a selection of her stunning photographs Alexandra Morton portrays life on the central British Columbia coast She arrived in the area in 1984 as a whale researcher and at first she was absorbed in studying the orca and admiring the magnificent scenery It is a coast with a long history dolphins have pulsed in and out for 10 000 years First Nations people have lived here for almost as long European settlers arrived a scant century ago As time passed Morton began to observe the lives of other creatures that share the sea and land humpback whales bears salmon eagles deer and humans and understand how they are all interconnected As one example Bears drag salmon beneath the trees of the forest feeding the giant plants that shade the river nursery protect its banks and allow it to make more fish In *Beyond the Whales* Alexandra explains what is going on beyond the beauty of the images One of the joys of watching a place for 20 years is being able to read the signs upon the sea bubbles on the surface mean tons of herring below three birds over an orca mean the whale has brought fish to the surface shearwaters in Blackfish Sound mean autumn is here The ocean feeds the rivers and the rivers feed the ocean

Heart of the Raincoast Alexandra Morton, Bill Proctor, 2016-05-03 Originally published in 1998 this updated edition has a brand new cover and interior design with a new foreword by Alexandra Morton Billy Proctor was born in 1934 and has spent his entire life in a remote coastal community called Echo Bay BC on an island off northern Vancouver Island Proctor has always done the time honoured work of generations of upcoast men hand logging fishing clam digging repairing boats beachcombing But Billy eventually began to notice that the thriving runs of Pacific salmon oolichans and herring that he remembers from his early years were vanishing some to near extinction and he understood that it was time to take action *Heart of the Raincoast* is the fascinating story of Billy Proctor's life and the wealth of knowledge and understanding that can only be gained from living in such close proximity to nature The writing is funny touching and honest and offers an engaging insider's view not only of the salmon whales eagles and independent people who populate Canada's wild and lovely coastal rainforest but on what we need to do to keep it as nature intended Whales of
