Terrorism And International Justice:

Terrorism and International Justice James P. Sterba, 2003 This collection of essays on terrorism and international justice focuses on three central questions What is the nature and rhetoric of terrorism Who are the terrorists and why do they hate And what is a morally justified response to terrorism *Encyclopedia of Global Justice* Deen K. Chatterjee, 2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer's book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas Global Justice and International Affairs Thom Brooks, 2011-11-25 Global justice and international affairs is perhaps the hottest topic in political philosophy today This book brings together some of the most important essays in this area Topics include sovereignty and self determination cosmopolitanism and nationalism global poverty and international distributive justice and war and terrorism Terrorism and Criminal Justice Ronald D. Crelinsten, Danielle Laberge-Altmejd, Denis Szabo, 1978 This book derives from a conference entitled The impact of terrorism and skyjacking on the operations of the criminal justice system held in February 1976 in Rochester Michigan **Interpol: Issues in World Crime and International Justice** Michael Fooner, 1989-08-31 Often regarded as a mystery Interpol the world association of national police forces for mutual assistance in the fight against international crimes and criminal conspiracies is analyzed in this book by a research scientist and its inner workings scrutinized Annotation copyright Book News Inc Problems Of International Justice Steven Luper-foy, 2019-06-04 When the topic of international justice did arise discussion rarely got beyond recommendations about how nations could avoid war as well as suggestions about when a declaration of war was morally justifiable and what sorts of methods might be used in the course of a justifiable war the topics of so called just war theory Such is no longer the case To be sure just war theory is reaching greater states of sophistication much of it focused around Michael Walzer's book Just and Unjust Wars Excerpts from Walzer's book appear here in Part Two along with a set of newly written chapters that deal with issues arising from the use of violence among nations The topics of these chapters are foreign interventionism and states rights deterrence and the threat of nuclear reprisal and terrorism But issues of international justice other than just war theory have been discussed by an ever increasing group of twentieth century scholars These issues deal with what might be called for lack of a better term distributive justice which concerns the distribution of the world's natural resources and the goods produced by laborers

across the world as well as the duties rights and liberties possessed by individuals How such items ought to be distributed within nation states has been discussed extensively by social and political philosophers Only in recent years has any attention been paid to the proper distribution of goods internationally The chapters in Part One all do so With one exception all of these chapters are written for this volume The exception is an excerpt from Charles Beitz's book *Political Theory and International Relations* Part Three of which is reproduced here almost in its entirety The other chapters in this part are devoted to the topics of justice and the distribution of the world's resources the obligation to assist the needy the responsibilities of international corporations and justice and the global environment

Terrorism Diogo Pires Aurélio, João Tiago Proença, 2011-01-18 This volume offers a collection of essays useful for analyzing and comparing terrorist movements especially in relation to Islamic terrorism But its scope goes well beyond that offering theoretical insights into the concept of terrorism debating the puzzling phenomenon from various traditions of thought including analyses of writings by Jürgen Habermas Michael Walzer and Eric Weil It examines the uses of violence by terrorism the who the how and the when Present day terrorism is a modern phenomenon to be distinguished from classical insurgency revolution guerrilla warfare or coups d'état it is mainly directed at modern societies whether from a religious fundamentalist point of view or from radical social and ecological movements In short terrorism uses largely fabricated ways of thought for political polemological ends In *Terrorism Politics Religion Literature* the reader will find plenty of food for thought as the chapters span a wide range of approaches including manifestos film and literature It will be of particular interest to observers scholars students military personnel journalists and government analysts
