The Dark Social Capital of Religious Radicals Johannes Saal, 2021-05-04 With the departure of European Muslims to the Islamic State and a wave of terrorist attacks in Europe in recent years the questions of why and how individuals radicalize to Jihadi extremism attracted keen interest This thesis examines how individuals radicalize by applying a theoretical framework that primarily refers to social capital theory the economics of religion and social movement theory The analysis of the biographical backgrounds pathways of radicalization and network connections of more than 1 300 Jihadi extremists from Germany Austria and Switzerland shows that radicalization primarily need to be considered as a social process of isolation from former social contacts and affiliation with a new religious group Radicalization is characterized by the transformation of social capital and often channeled through so called strong ties to friends and family members These peer networks constitute the social fundament of radical clusters on the local level which are usually linked to a broader milieu through exclusive mosque communities and religious authorities Bonding social capital within these radical groups minimizes the risk of betrayal and promotes trust essential for clandestine and risky activities

Crimes of the American Nuclear State David Kauzlarich, Ronald C. Kramer, 1998 In this provocative book the authors outline the crimes committed by the state under the protective shield of national security including the shaping of foreign policy around the threat of nuclear hostility the subjection of Americans to human radiation experiments and the massive environmental contamination caused by radioactive waste This insightful work clearly shows that the threats posed by nuclear states extend far beyond the dangers of nuclear war The authors argue convincingly that criminologists government officials and the general public have for too long avoided and neglected the illegal aspects of nuclear weapons policies in particular and the larger issue of state crime in general

Violence And Police Culture Tony

Coady, Steven James, 2013-05-24 Violence and policing are inevitably associated. Criminals use violence not only against innocent members of the public but also against the police themselves. For our own protection and theirs we have given police a licence to use force sometimes with lethal consequences. But the exercise of this licence is fraught with risk to the community. The disturbing record of police shootings in Victoria and irresponsible police violence elsewhere in recent years vividly illustrate this risk. The public outcry against such events is understandable. To find a solution we need to analyse the contexts and the cultural background of the use of police violence and to think hard about its causes and proper limits. In *Violence and Police Culture* eminent contributors offer valuable insights and experience to the growing debate. While Australian in origin and emphasis the book addresses a public issue that resonates as far afield as London, New York, Tokyo and Belfast. *Violence and Police Culture* argues that there are features of police culture which foster abuse of the right to use violence. The book makes positive suggestions about institutional changes that might alleviate the problems bedevilling what the philosopher Thomas Hobbes called the right of the sword. *Philosophical Perspectives on the Israeli-Palestinian Conflict* Tomis Kapitan, 2015-06-11 This volume addresses a number of philosophical problems that arise in consideration of the century old conflict between Israeli Jews and Palestinian Arabs. Consisting of essays by fifteen contributors including both Israeli and Palestinian philosophers and a lengthy introduction by the editor it deals with rights to land, sovereignty, self-determination, the existence and legitimacy of states, cultural prejudice, national identity, intercommunal violence and religious intransigence.
