Tethered Liberty:

Tethered Liberty Jessica Steele, 1983 **Liberty's Flight** John Hamlin Gordon II, 2022-08-01 Liberty's Flight is the first in a series of novels attempting to capture the spirit and flavor of the evolution of our nation. Well-known personages and events are seen through the eyes of an irredeemable Jacobite who fled Scotland at the end of a bayonet fixed on a Brown Bess by order of King George II.

The Standard, 1921 Fraser's Magazine, 1845 **Fundamental Christian Ethics** Daniel Heimbach, 2022-11-01 In Fundamental Christian Ethics Daniel Heimbach draws from decades of research and scholarship to introduce the field of Christian ethics in a comprehensive manner while showing how it dialogues with modern-day ethical topics and issues.

Equine-imity Beverley Kane, MD, 2021-03-27 Ever wonder what it means to be as healthy as a horse? Equine-imity teaches you how to achieve optimal mind-body health with qigong, a tai chi-like moving meditation in the presence of gentle, sensitive horses. Written especially for non-equestrians and non-meditators, seven easy-to-learn exercises provide international resources for how to find a horse near you. Based on our course of the same name at Stanford, Equine-imity draws on principles and techniques from yoga, tai ji, mindfulness meditation, and Reiki, lovingly laid on a foundation of Daoist philosophy and Jungian psychology. From an East-meets-Western medical perspective, Equine-imity includes state-of-the-art information on stress physiology, sports medicine, mirror neurons, and the physics and metaphysics of energy measurement.

Birth of the State Charlotte Epstein, 2021 This book uses the body to peel back the layers of time and taken-for-granted ideas about the two defining political forms of modernity: the state and the subject of rights. It traces, under the lens of the body, how the state and the subject mutually constituted each other all the way down by going all the way back to their original crafting in the seventeenth century. It considers two revolutions: the first scientific, which threw humanity out of the centre of the universe and transformed the very meanings of matter, space, and the body; while the second, legal and political, re-established humans as the centre point of the framework of modern rights. The book analyses the fundamental rights to security, liberty, and property respectively as the initial knots where the state-subject relation was first sealed. It develops three arguments: that the body served to naturalise security, to individualise liberty, and to privatise property. Covering a wide range of materials from early modern Dutch painting to the canon of English political thought, the Anglo-Scottish legal struggles of naturalization and medical and religious practices, it shows both how the body has operated as history's great naturaliser and how it can be mobilised instead as a critical tool that lays bare the deeply racialised and gendered constructions that made the state and the subject of rights. The book returns to the origins of constructivist and constitutive theorising to reclaim their radical and critical potential.
