Texas Lost Vanishing Heritage:

Texas Lost Andrew Sansom,1995 In no other state is the identity of its people so closely tied to the land as it is in Texas Texans have historically passionately defined themselves through their sense of place As one considers the remarkable diversity of the landscape of Texas the array of cultures that have arisen from the land the fierce individuality of the people is easy to understand Today the very foundation of that deep sense of who we are is threatened by forces that are changing the character of the land more rapidly profoundly than at any other time since the introduction of agriculture Few remnants of the real Texas remain the realities of public policy finance in the nineties present an uncertain climate for protecting those natural treasures that have managed to survive And some have survived The best most significant of them are presented in this book along with a twenty first century strategy for protecting them If we want our children to understand what it means to be Texan we can do no less PUBLICATION DATE OCTOBER 1995 160 PAGE FULL COLOR THROUGHOUT HARDBACK COST 39 95 ISBN 0 9647023 0 4 FOR MORE INFORMATION GULF PUBLISHING 713 529 4301 **Texas Natural History** David J. Andrew Sansom Laura Raun, 2025-05-01 Andrew Sansom is known as the Teddy Roosevelt of Texas because he protected more than a half million acres of land in parks nature preserves and wildlife management areas following in the footsteps of the early 20th Century president who protected millions of acres in public lands Sansom's leadership style is based on compromise and common ground providing those who want to conserve natural resources and those who want to monetize them a means to work together In the world of Texas conservation the figure of Andrew Sansom looms large Few can match Sansom's contributions to the natural landscape of Texas such as the over 500 000 acres of state parks and wildlife management areas he helped protect during his leadership at the Texas Parks and Wildlife Department He has spent a lifetime finding common ground between those who want to conserve natural resources and those who want to monetize them Sansom's gift has been finding the formula for persuading landowners in Texas where private property rights dominate public policy that conserving their natural assets provides a measurable financial return as well as an emotional one Over the course of his career Sansom has become well acquainted with the rough and tumble of Texas politics especially where it concerns the environment After his trailblazing work at TPWD he went on to establish The Meadows Center for Water and the Environment at Texas State University which has become one of the state's premier research and education centers for the study of water and watersheds Andrew Sansom A Life in Conservation chronicles Sansom's journey as an environmentalist a fundraiser a professor an author and most importantly a central figure in the history of conservation in Texas At a time when our public lands are being opened up for commerce as never before we are at risk of losing not only habitat and wildlife diversity but also a visceral connection to nature Sansom's life story offers inspiration and useful lessons in finding ways to protect our environment while allowing sustainable development for future generations
