Sir Robert Walpoles Poets:

Sir Robert Walpole's Poets Tone Sundt Urstad, 1999 During Sir Robert Walpole's term as Prime Minister exorbitant amounts of money were spent on propaganda in support of his administration Since nearly all the major writers of the period adopted an anti government stance however historians have shown far more interest in the organization and contents of opposition propaganda than in its pro government counterpart This book is the first comprehensive study of the literature published in support of Walpole's administration and explores important pro government themes and also explains how the propaganda network was organized and what precisely the Old Corps Whig leadership hoped to achieve BOOK JACKET Title

Reproduction of the original *The Lives of the Poets of Great Britain and Ireland 1753* by Theophilus Cibber **Poetry and the Creation of a Whig Literary Culture 1681-1714** Abigail Williams, 2005-03-24 Poetry and the Creation of a Whig Literary Culture offers a new perspective on early eighteenth century poetry and literary culture arguing that long neglected Whig poets such as Joseph Addison John Dennis Thomas Tickell and Richard Blackmore were more popular and successful in their own time than they have been since These and other Whig writers produced elevated poetry celebrating the political and military achievements of William III's Britain and were committed to an ambitious project to create a distinctively Whiggish English literary culture after the Revolution of 1688 Far from being the penniless hacks and dunces satirized by John Dryden and the Scriblerians they were supported by the patronage of the wealthy Whig aristocracy and their works promoted as a new English literature to rival that of classical Greece and Rome Poetry and the Creation of a Whig Literary Culture maps for the first time the evolution of an alternative early eighteenth century poetic tradition which is central to our understanding of the literary history of the period *Lives of the English Poets: Swift-Lyttelton* Samuel Johnson, 1905

Patriotism and Poetry in Eighteenth-Century Britain Dustin Griffin, 2005-11-17 The poetry of the mid and late eighteenth century has long been regarded as primarily private and apolitical in this wide ranging study Dustin Griffin argues that in fact the poets of the period were addressing the great issues of national life rebellion at home imperial wars abroad an expanding commercial empire an emerging new British national identity Taking up the topic of patriotic verse Griffin shows that poets such as Thomas Gray Christopher Smart Oliver Goldsmith and William Cowper were engaged in the century long debate about the nature of true patriotism
