

A sepia-toned portrait of Sir William Berkeley, a colonial administrator. He is shown from the chest up, wearing a dark coat over a white shirt with a ruffled collar. He has long, dark, wavy hair. He is holding a rolled-up document or scroll in his right hand, which is extended towards the left. The background is dark and indistinct.

Sir William Berkeley And The Forging Of Colonial Virginia:

Sir William Berkeley and the Forging of Colonial Virginia Warren M. Billings, 2004 Sir William Berkeley 1605-1677 influenced colonial Virginia more than any other man of his era diversifying Virginia's trade with international markets serving as a model for the planter aristocracy and helping to establish American self rule An Oxford educated playwright soldier and diplomat Berkeley won appointment as governor of Virginia in 1641 after a decade in the court of King Charles I Between his arrival in Jamestown and his death Berkeley became Virginia's leading politician and planter indelibly stamping his ambitions accomplishments and ultimately his failures upon *Sir William Berkeley and the Forging of Colonial Virginia* Warren M. Billings, 2010-03-01 Sir William Berkeley 1605-1677 influenced colonial Virginia more than any other man of his era diversifying Virginia's trade with international markets serving as a model for the planter aristocracy and helping to establish American self rule An Oxford educated playwright soldier and diplomat Berkeley won appointment as governor of Virginia in 1641 after a decade in the court of King Charles I Between his arrival in Jamestown and his death Berkeley became Virginia's leading politician and planter indelibly stamping his ambitions accomplishments and ultimately his failures upon the colony In this masterly biography Warren M Billings offers the first full scale treatment of Berkeley's life revealing the extent to which Berkeley shaped early Virginia and linking his career to the wider context of seventeenth century Anglo American history The Divided Dominion Ethan A. Schmidt, 2015-04-01 In *The Divided Dominion* Ethan A Schmidt examines the social struggle that created Bacon's Rebellion focusing on the role of class antagonism in fostering violence toward native people in seventeenth century Virginia This provocative volume places a dispute among Virginians over the permissibility of eradicating Native Americans for land at the forefront in understanding this pivotal event Myriad internal and external factors drove Virginians to interpret their disputes with one another increasingly along class lines The decades long tripartite struggle among elite whites non elite whites and Native Americans resulted in the development of mutually beneficial economic and political relationships between elites and Native Americans When these relationships culminated in the granting of rights equal to those of non elite white colonists to Native Americans the elites crossed a line and non elite anger boiled over A call for the annihilation of all Indians in Virginia united different non elite white factions and molded them in widespread social rebellion *The Divided Dominion* places Indian policy at the heart of Bacon's Rebellion revealing the complex mix of social cultural and racial forces that collided in Virginia in 1676 This new analysis will interest students and scholars of colonial and Native American history The Old Dominion in the Seventeenth Century Warren M. Billings, 2012-12-01 Since its original publication in 1975 *The Old Dominion in the Seventeenth Century* has become an important teaching tool and research volume Warren Billings brings together more than 200 period documents organized topically with each chapter introduced by an interpretive essay Topics include the settlement of Jamestown the evolution of government and the structure of society forced labor the economy Indian Anglo relations and Bacon's Rebellion This revised

expanded and updated edition adds approximately 30 additional documents extending the chronological reach to 1700 Freshly rethought chapter introductions and suggested readings incorporate the vast scholarship of the past 30 years New illustrations of seventeenth century artifacts and buildings enrich the texts with recent archaeological findings With these enhancements and a full index students scholars and those interested in early Virginia will find these documents even more enlightening The Papers of Sir William Berkeley, 1605-1677 Sir William Berkeley, Warren M. Billings, Maria E.

Kimberly, 2007 *The Old Dominion in the Seventeenth Century (Volume 1 of 2) (EasyRead Super Large 20pt Edition)* ,

No Wood, No Kingdom Keith Pluymers, 2021-05-21 In early modern England wood scarcity was a widespread concern Royal officials artisans and common people expressed their fears in laws petitions and pamphlets in which they debated the severity of the problem speculated on its origins and proposed solutions to it No Wood No Kingdom explores these conflicting attempts to understand the problem of scarcity and demonstrates how these ideas shaped land use forestry and the economic vision of England's earliest colonies Popular accounts have often suggested that deforestation served as a push for English colonial expansion Keith Pluymers shows that wood scarcity in England rather than a problem of absolute supply and demand resulted from social conflict over the right to define and regulate resources difficulties obtaining accurate information and competing visions for trade forestry and the English landscape Domestic scarcity claims did encourage schemes to develop wood dependent enterprises in the colonies but in practice colonies competed with domestic enterprises rather than supplanting them Moreover close studies of colonial governments and the actions of individual landholders in Ireland Virginia Bermuda and Barbados demonstrate that colonists experimented with different often competing approaches to colonial woods and trees including efforts to manage them as long term resources albeit ones that nonetheless brought significant transformations to the land No Wood No Kingdom explores the efforts to knot together woods around the Atlantic basin as resources for an English empire and the deep underlying conflicts and confusion that largely frustrated those plans It speaks to historians of early modern Europe early America and the Atlantic World but also offers key insights on early modern resource politics forest management and political ecology of interest to readers in the environmental humanities and social sciences as well as those interested in colonialism or economic history British North America in the Seventeenth and Eighteenth Centuries Stephen Foster, 2013-11-21 Until relatively recently the connection between British imperial history and the history of early America was taken for granted In recent times however early American historiography has begun to suffer from a loss of coherent definition as competing manifestos demand various reorderings of the subject in order to combine time periods and geographical areas in ways that would have previously seemed anomalous It has also become common place to announce that the history of America is best accounted for in America itself in a three way melee between settlers the indigenous populations and the forcibly transported African slaves and their creole descendants The contributions to British North America in the Seventeenth and Eighteenth Centuries acknowledge the value of the

historiographic work done under this new dispensation in the last two decades and incorporate its insights However the volume advocates a pluralistic approach to the subject generally and attempts to demonstrate that the metropolitan power was of more than secondary importance to America in the seventeenth and eighteenth centuries The central theme of this volume is the question to what extent did it make a difference to those living in the colonies that made up British North America in the seventeenth and eighteenth centuries that they were part of an empire and that the empire in question was British The contributors some of the leading scholars in their respective fields strive to answer this question in various social political religious and historical contexts *A History of North Carolina in the Proprietary Era, 1629-1729* Lindley S. Butler, 2022-03-10 In this book Lindley S Butler traverses oft noted but little understood events in the political and social establishment of the Carolina colony In the wake of the English Civil Wars in the mid seventeenth century King Charles II granted charters to eight Lords Proprietors to establish civil structures levy duties and taxes and develop a vast tract of land along the southeastern Atlantic coast Butler argues that unlike the New England theocracies and Chesapeake plantocracy the isolated colonial settlements of the Albemarle the cradle of today s North Carolina saw their power originate neither in the authority of the church nor in wealth extracted through slave labor but rather in institutions that emphasized political legal and religious freedom for white male landholders Despite this distinct pattern of economic legal and religious development however the colony could not avoid conflict among the diverse assemblage of Indigenous European and African people living there all of whom contributed to the future of the state and nation that took shape in subsequent years Butler provides the first comprehensive history of the proprietary era in North Carolina since the nineteenth century offering a substantial and accessible reappraisal of this key historical period **The Barbarous Years** Bernard Bailyn, 2012 Presents an account of the first great transit of people from Britain Europe and Africa to the North American British colonies evaluating its diversity the survival struggles of immigrants and their relationships with the indigenous populations of the Eastern seaboard **The Old Dominion in the Seventeenth Century (Volume 1 of 2) (EasyRead Large Bold Edition)** Warren M. Billings, 2008 Lethal Encounters Alfred A. Cave, 2011-01-20 This in depth narrative history of the interactions between English settlers and American Indians during the Virginia colony s first century explains why a harmonious coexistence proved impossible Britain s first successful settlements in America occurred over 400 years ago Not surprisingly the historical accounts of these events have often contained inaccuracies This compelling study of colonial Virginia is based upon the latest research shedding new light on the tensions between the English and the American Indians and clarifying the facts about storied relationships In *Lethal Encounters* Englishmen and Indians in Colonial Virginia the author examines why the Anglo settlers were unable to establish a peaceful and productive relationship with the region s native inhabitants Readers will come to understand how the deep prejudices harbored by both whites and Indians the incompatibility of their economic and social systems and the leadership failures of protagonists like John Smith Powhatan Opechacanough and

William Berkeley caused this breakdown The Old Dominion in the Seventeenth Century (Volume 2 of 2) (EasyRead Comfort Edition) , **A Distinct Judicial Power** Scott Douglas Gerber,2011-01-10 A Distinct Judicial Power The Origins of an Independent Judiciary 1606 1787 by Scott Douglas Gerber provides the first comprehensive critical analysis of the origins of judicial independence in the United States Part I examines the political theory of an independent judiciary Gerber begins chapter 1 by tracing the intellectual origins of a distinct judicial power from Aristotle s theory of a mixed constitution to John Adams s modifications of Montesquieu Chapter 2 describes the debates during the framing and ratification of the federal Constitution regarding the independence of the federal judiciary Part II the bulk of the book chronicles how each of the original thirteen states and their colonial antecedents treated their respective judiciaries This portion presented in thirteen separate chapters brings together a wealth of information charters instructions statutes etc about the judicial power between 1606 and 1787 and sometimes beyond Part III the concluding segment explores the influence the colonial and early state experiences had on the federal model that followed and on the nature of the regime itself It explains how the political theory of an independent judiciary examined in Part I and the various experiences of the original thirteen states and their colonial antecedents chronicled in Part II culminated in Article III of the U S Constitution It also explains how the principle of judicial independence embodied by Article III made the doctrine of judicial review possible and committed that doctrine to the protection of individual rights **Power in Modernity** Isaac Ariail Reed,2020-03-25 In Power in Modernity Isaac Ariail Reed proposes a bold new theory of power that describes overlapping networks of delegation and domination Chains of power and their representation linking together groups and individuals across time and space create a vast network of intersecting alliances subordinations redistributions and violent exclusions Reed traces the common action of sending someone else to do something for you as it expands outward into the hierarchies that control territories persons artifacts minds and money He mobilizes this theory to investigate the onset of modernity in the Atlantic world with a focus on rebellion revolution and state formation in colonial North America the early American Republic the English Civil War and French Revolution Modernity Reed argues dismantled the King s Two Bodies the monarch s physical body and his ethereal sacred second body that encompassed the body politic as a schema of representation for forging power relations Reed s account then offers a new understanding of the democratic possibilities and violent exclusions forged in the name of the people as revolutionaries sought new ways to secure delegation build hierarchy and attack alterity Reconsidering the role of myth in modern politics Reed proposes to see the creative destruction and eternal recurrence of the King s Two Bodies as constitutive of the modern attitude and thus as a new starting point for critical theory Modernity poses in a new way an eternal human question what does it mean to be the author of one s own actions The Torrid Zone L. H. Roper,2022-04-13 The first comparative history of European settlers trading pirating and colonizing activities in the Caribbean Brimming with new perspectives and cutting edge research the essays collected in The Torrid Zone explore colonization and cultural

interaction in the Caribbean from the late 1600s to the early 1800s a period known as the long seventeenth century a time when these encounters varied widely and the diverse actors were not yet fully enmeshed in the culture and power dynamics of master slave relations The events of this era would profoundly affect the social and political development both of the colonies that Europeans established in the Caribbean and the wider world This book is the first to offer comparative treatments of Danish Dutch English and French trading pirating and colonizing activities in the Caribbean and analysis of the corresponding interactions among people of African European and Native origin The contributions range from an investigation of the indigenous colonization of the Lesser Antilles by the Kalinago to a look at how the Anglo Dutch wars in Europe affected relations between the English inhabitants and the Dutch government of Suriname Among the other essays are incisive examinations of the often neglected history of Danish settlement in the Virgin Islands attempts to establish French colonial authority over the pirates of Saint Domingue and how the Caribbean blueprint for colonization manifested itself in South Carolina through enslavement of Amerindians and the establishment of plantation agriculture The extensive geographic demographic and thematic concerns of this collection shed a clear light on the socioeconomic character of the Torrid Zone before and during the emergence and extension of the sugar and slaves complex that came to define this region The book is an invaluable contribution to our understanding of the social political and economic sensibilities to which the operators around the Caribbean subscribed as well as to our understanding of what they did offering in turn a better comprehension of the consequences of their behavior Covering a variety of undertakings especially English but also Dutch Danish French and indigenous this collection makes a welcome contribution to our understanding of a pivotal period in the history of the West Indies Carla Gardina Pestana University of California Los Angeles This illuminating collection of essays brings the Caribbean squarely into the frame of analysis strongly making the case that the experiences and developments of the Caribbean colonies remained crucial to the history of colonial America The contributions cover the centrality of enslaved people s labor and the actions of Indigenous and peoples of African descent who shaped the history of the region through their resistance accommodation and engagement Ignacio Gallup Diaz Bryn Mawr College [Early Modern Virginia](#) Douglas Bradburn, John C. Coombs, 2011-09-20 This collection of essays on seventeenth century Virginia the first such collection on the Chesapeake in nearly twenty five years highlights emerging directions in scholarship and helps set a new agenda for research in the next decade and beyond The contributors represent some of the best of a younger generation of scholars who are building on but also criticizing and moving beyond the work of the so called Chesapeake School of social history that dominated the historiography of the region in the 1970s and 1980s Employing a variety of methodologies analytical strategies and types of evidence these essays explore a wide range of topics and offer a fresh look at the early religious political economic social and intellectual life of the colony Contributors Douglas Bradburn Binghamton University State University of New York John C Coombs Hampden Sydney College Victor Enthoven Netherlands Defense Academy Alexander

B Haskell University of California Riverside Wim Klooster Clark University Philip Levy University of South Florida Philip D Morgan Johns Hopkins University William A Pettigrew University of Kent Edward DuBois Ragan Valentine Richmond History Center Terri L Snyder California State University Fullerton Camilla Townsend Rutgers University Lorena S Walsh Colonial Williamsburg Foundation **The English Empire in America, 1602-1658** L H Roper, 2015-10-06 This study situates the colonization of Virginia the centrepiece of early English overseas settlement activity in the social and political landscape of the early seventeenth century *Between Two Worlds* Malcolm Gaskill, 2014 In the 1600s over 350 000 intrepid English men women and children migrated to America leaving behind their homeland for an uncertain future Whether they settled in Jamestown Salem or Barbados these migrants entrepreneurs soldiers and pilgrims alike faced one incontrovertible truth England was a very very long way away In *Between Two Worlds* celebrated historian Malcolm Gaskill tells the sweeping story of the English experience in America during the first century of colonization Following a large and varied cast of visionaries and heretics merchants and warriors and slaves and re *Tales from a Revolution* James D. Rice, 2012-09-03 In this vivid account of Bacon s Rebellion James Rice tells the tale of Bacon s Rebellion 1676 1677 and its aftermath As the tense drama unfolds it becomes apparent that the struggle between the followers of the veteran governor of Virginia William Berkeley and the hotheaded young newcomer Nathaniel Bacon is nothing less than a battle over the soul of America the story of the rebellion is also the story of race slavery western expansion and empire in American history
