Six Women Novelists:

Six Women Novelists Merryn Williams, 1987 The six women writers discussed in this book Olive Schreiner Edith Wharton Flora Macdonald Mayor Katherine Mansfield Dorothy L Sayers and Antonia White are all post Victorian and lived through a time when ideas about class religion and the family were changing drastically Middle class women were becoming much more mobile adventurous and independent but they were still expected to lead different lives from men and be perfect wives and mothers All six writers suffered from these strains and commented in different ways on what was happening to the post Victorian woman Merryn Williams gives an account of each woman's literary achievement and shows how all the women dealt with a society that gave them confused and contradictory messages In so doing she gives a remarkably full picture of women emerging from Victorianism and entering the sexual wilderness

British Women Writers and the Writing of History, 1670-1820 Devoney Looser, 2003-05-01 Chosen by Choice Magazine as an Outstanding Academic Title Until recently history writing has been understood as a male enclave from which women were restricted particularly prior to the nineteenth century The first book to look at British women writers and their contributions to historiography during the long eighteenth century British Women Writers and the Writing of History 1670-1820 asks why rather than writing history that included their own sex some women of this period chose to write the same kind of history as men one

that marginalized or excluded women altogether But as Devoney Looser demonstrates although British women s historically informed writings were not necessarily feminist or even female focused they were intimately involved in debates over and conversations about the genre of history Looser investigates the careers of Lucy Hutchinson Lady Mary Wortley Montagu Charlotte Lennox Catharine Macaulay Hester Lynch Piozzi and Jane Austen and shows how each of their contributions to historical discourse differed greatly as a result of political historical religious class and generic affiliations Adding their contributions to accounts of early modern writing refutes the assumption that historiography was an exclusive men s club and that fiction was the only prose genre open to women

The Women Writers in Schiller's Horen Janet Besserer Holmgren, 2007 This work examines the integral role that six female authors played in Schiller s ambitious literary journal Die Horen 1795-97 Louise Brachmann Friederike Brun Amalie von Imhoff Sophie Mereau Elisa von der Recke and Caroline von Wolzogen helped put the journal back on track when it floundered fiscally and programmatically and their literary contributions were among the most successful the journal ever received Beyond a critical discussion of the women s publications in Schiller s journal this work addresses the range of problems associated with women s writing and publishing during the late eighteenth century the aesthetics of Weimar Classicism Schiller and to a lesser degree Goethe as patrons and the interpretation of literary history

'Modernist' Women Writers and Narrative Art Kathleen Wheeler, 1994-09 This book is an examination of the narrative strategies and stylistic devices of modernist writers and of earlier writers normally associated with late realism In the case of the latter Edith Wharton Kate Chopin and Willa Cather are shown to have engaged in an ironic critique of realism by exploring the inadequacies of this form to express human experience and by revealing hidden and contradictory assumptions By drawing upon insights from feminist theory deconstruction and revisions of new historicism and by restoring aspects of formalist analysis Kathleen Wheeler traces the details of these various dialogues with the literary tradition etched into structural stylistic and thematic elements of the novels and short stories discussed These seven writers are not only discussed in detail they are also related to a literary tradition of dozens of other women writers of the twentieth century as Jean Rhys Katherine Mansfield Stevie Smith and Jane Bowles are shown to take the developments of the earlier three writers into full modernism

British Women Writers 1914-1945 Catherine Clay, 2017-09-20 Catherine Clay s persuasively argued and rigorously documented study examines women s friendships during the period between the two world wars Building on extensive new archival research the book s organizing principle is a series of literary historical case studies that explore the practices meanings and effects of friendship within a network of British women writers who were all loosely connected to the feminist weekly periodical Time and Tide Clay considers the letters and diaries as well as

fiction poetry autobiographies and journalistic writings of authors such as Vera Brittain Winifred Holtby Storm Jameson Naomi Mitchison and Stella Benson to examine women's friendships in relation to two key contexts the rise of the professional woman writer under the shadow of literary modernism and historic shifts in the cultural recognition of lesbianism crystallized by The Well of Loneliness trial in 1928 While Clay's study presents substantial evidence to support the crucial role close and enduring friendships played in women's professional achievements it also boldly addresses the limitations and denials of these relationships Producing biographies of friendship untold in existing author studies her book also challenges dominant accounts of women's friendships and advances new ways for thinking about women's friendship in contemporary debates

Great Books by German Women in the Age of Emotion, 1770-1820 Margaretmary Daley, 2022 Literature written by women in German during the period long known patriarchally as the Age of Goethe was largely lumped in with other unserious or artistically unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women s ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche s *Die Geschichte des Fr auleins von Sternheim* The History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger s *Julchen Gr unthal* brings to the *Frauenroman* or women s novel the use of irony to portray a heroine s emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau s *Bl utenalter der Empfindung* The Blossoming of Feeling imagines women s affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her *Agnes von Lilien* The fifth novel *Die Honigmonathe* The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler s *Frauenwurde* The Dignity of Women expands the focus from a young heroine to multiple mature characters while maintaining the centrality of women s talents and emotions Finally this study accords honorable mention to some other women s novels before concluding that the influence of these six works was in no way trivial either in portraying women s lives and emotions or in the history of German literature

Early Modern Women's Writing and the Future of Literary History Lara Dodds, Michelle M. Dowd, 2025-02-03 Early Modern Women s Writing and the Future of Literary History demonstrates that a full accounting of early modern women s literary and creative activities is necessary to the future of literary studies writ large Despite benefiting from a rich body of scholarship and diverse critical practices early modern women s writing is still treated as an optional or secondary component of Renaissance literary studies as a whole In this book Dodds and Dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future Dodds and Dowd examine how perennial

questions about authorship canon and literary value have historically influenced scholarship on early modern women's writing and its place within literary studies. Early modern women's writing has been perceived as belated, out of sync with dominant critical trends. Dodds and Dowd show the belatedness of early modern women's writing to be a happy accident that positions women's writing as a resource for the renewal of literary history. In both the classroom and in scholarship, early modern women's writing shows the way forward for the field, whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies. This book demonstrates that a feminist literary history that places women's writing at its center is essential to the future of English Renaissance literary studies. There is, in other words, no history of English Renaissance literature without women writers.
