In Defense of the Princess Jerramy Fine, 2016-03-22 It s no secret that most girls at some point love all things princess the poofy dresses the plastic

tiaras the color pink Even grown up women can't get enough of royal weddings and royal gossip Yet critics claim the princess dream sets little girls up to be weak and submissive and allows grown women to indulge in fantasies of rescue rather than hard work and self reliance Enter Jerramy Fine an unabashed feminist who is proud of her life long princess obsession and more than happy to defend it Through her amusing life story and in depth research Fine makes it clear that feminine doesn't mean weak pink doesn't mean inferior and girliness is not incompatible with ambition From 9th century Cinderella to modern day Frozen from Princess Diana to Kate Middleton from Wonder Woman to Princess Leia Fine valiantly assures us that princesses have always been about power not passivity And those who love them can still be confident intelligent women Provocative insightful but also witty and personal In Defense of the Princess empowers girls women and parents to dream of happily ever after without any guilt or shame

The Psychology of War and Peace Fred van Houten, 2013-06-29 Can a Baby Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This volume forms a welcome part of that process Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futuristic moral deterioration and a fatalistic decline in the will to struggle to protect our home the Earth

Bibliography of the Literacy Support Project Betty A. Neely, 1987 **Teaching American Studies** Elizabeth A. Duclos-Orsello, Joseph B. Entin, Rebecca Hill, 2021-08-17 What if American Studies is defined not so much in the pages of the most cutting edge publications but through what happens in our classrooms and other learning spaces In Teaching American Studies Elizabeth Duclos Orsello Joseph Entin and Rebecca Hill ask a diverse group of American Studies educators to respond to that question by writing chapters about teaching that use a classroom activity or a particular course to reflect on the state of the field of American Studies Teaching American Studies speaks to teachers with a wide range of relationships to the field To start it is a useful how to guide for faculty who might be new to or unfamiliar with American Studies Each author brings the reader into their classes to offer specific concrete details about their pedagogical practice and their students learning The resulting chapters connect theory and educational action as well as share challenges difficulties and lessons learned The volume also provides a collective impression of American Studies from the point of view of students and teachers

What primary and secondary texts and what theoretical challenges and issues do faculty use to organize their teaching How does the teaching we do respond to our institutional and educational contexts How do our experiences and those of our students challenge or change our understanding of American Studies Chapters in this collection discuss teaching a broad range of materials from memoirs and novels by Anne Moody and Octavia Butler to cutting edge cultural theory to the widely used collection Keywords for American Cultural Studies But the chapters in this collection are also about dancing eating and walking around a campus to view statues and gravestones They are about teaching during the era of Donald Trump Black Lives Matter and giving up authority in the classroom Teaching American Studies is both a new way to think about American Studies and a timely collection of effective ways to teach about race gender sexuality and power in a moment of political polarization and intense public scrutiny of universities
