Strahlungen II:

Fascism's Return Richard Joseph Golsan, 1998-01-01 In *Fascism's Return* eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the 1980s of Central American dictatorships

The Representation of War in German Literature Elisabeth Krimmer, 2010-06-10 The history of literature about war is marked by a fundamental paradox although war forms the subject of countless novels dramas poems and films it is often conceived as indescribable Even as many writers strive towards an ideal of authenticity they maintain that no representation can do justice to the terror and violence of war Readings of Schiller Kleist J nger Remarque Grass B ll Handke and Jelinek reveal that stylistic and aesthetic features gender discourses and concepts of agency and victimization can all undermine a text's martial stance or its ostensible pacifist agenda Spanning the period from the Revolutionary and Napoleonic Wars to the recent wars in Yugoslavia and Iraq this book investigates the aesthetic theoretical and historical challenges that confront writers of war

Ernst J nger Justin Clemens, Nicolas Hausdorf, Birgit Lang, Marilyn Stendera, Giles Fielke, 2021-12-01 More than twenty years after Ernst J nger's death in 1998 the controversial German writer's work continues to compel the attention of readers critics and scholars In early 2019 J nger's diaries the *Strahlungen* written while he was an officer in occupied Paris during World War II were published in English to wide acclaim These intimate accounts of high literary and philosophical quality reveal J nger negotiating compliance with acts of subversion and resistance against the Nazi regime His life is evidence that history can be both real and unrealistic at once crystallising something essential about a twentieth century that witnessed the rise of total mobilisation global war and unprecedented technologies of mass extermination This volume presents four new essays by established and emerging scholars on J nger's work and legacy Together they provide biographical philosophical psychological and aesthetic access points to a major twentieth century German intellectual who like few others invites us to investigate the ambiguities constraints and imperatives of our own times

Distant Kinship Matthias N. Lorenz, 2022-07-28 This study of Joseph Conrad's influential work *Heart of Darkness* presents for the first time the German language reception of this reference text in the debate on postcolonialism The spectrum ranges from Conrad's contemporaries like Kafka to many canonical authors of the 20th century including Thomas Mann Ernst J nger Christa Wolf to the most recent names in literature i e Christian Kracht und Lukas Bruffuss Beyond the readings of their works the study contributes to the study of cultural transfers as well as to Conrad philology and it expands the theory of intertextuality with parameters that capture the complex factor of power in

 Silesia raised in the Frankfurt area and educated in Berlin Werner Sollors has spent most of his career at Harvard University

 figure in the field of ethnic studies The pieces collected here range from Puritan New England to contemporary Germany
 from Exodus to Mary Antin's Promised Land from the Curse of Ham to Teju Cole They attest to Sollors deep historical
 sensibilities his attention to textual detail and his awareness of the costs and opportunities of both cosmopolitan ideals and
 particularist commitments whilst addressing a central question why does modernisation take the form of ethnicisation in
 many places around the globe The collected essays are complemented by a detailed introduction by Daniel G Williams which
