Territorium Artis:

Territorium Artis Pontus Hultén, 1992 Pontus Hultén founder director of the German Kunst und Ausstellungshalle marks out a broad field for Modernism in an unconventional way in this volume and calls it Territorium Artis He launches a broad span from Rodin to contemporary artists without putting the personality of the artist in the centre or dealing with trends styles and developments Instead he directs his attention towards pioneering individual works that were violently rejected by critics at the time they originated as not having anything to do with art but later turned out to have been the works that had the greatest intellectual and spiritual explosive force **Art That Moves** Roger Horrocks, 2013-11-01 A companion to the author's bestselling biography of Len Lye this compelling volume shifts the focus from Lye's life to his art practice and innovative aesthetic theories about the art of motion which continue to be relevant today Going beyond a general introduction to Lye and his artistic importance this in depth book offers a detailed study of his aesthetics of motion analyzing how these theories were embodied in his sculptures and films **Artspace**, 1992 **Dictionary of Women Artists:**

Artintact, 1996 **Interdisciplinary Exhibitions and the Production of Knowledge** Henriette Pleiger, 2024-11-22 How can exhibitions not only stage existing knowledge but also raise questions that lead to new research This question has become ever more relevant due to the museum sector's growing interest in the development of thematic exhibitions that combine narratives and objects from art science cultural history and everyday life Using theories from interdisciplinarity studies Henriette Pleiger identifies different ways of producing knowledge during the exhibition making process as well as the mechanisms that are necessary for an exhibition to be considered interdisciplinary The development of such exhibitions
