in the B Western explores the construction and representation of masculinity in low budget western movies made from the 1930s to the early 1950s These films contained some of the mid twentieth century s most familiar names especially for youngsters cowboys such as Roy Rogers Hopalong Cassidy and Red Ryder The first serious study of a body of films that was central to the youth of two generations He Was Some Kind of a Man combines the author s childhood fascination with this genre with an interdisciplinary scholarly exploration of the films influence on modern views of masculinity McGillis argues that the masculinity offered by these films is less one dimensional than it is plural perhaps contrary to expectations Their deeply conservative values are edged with transgressive desire and they construct a male figure who does not fit into binary categories such as insider outsider or masculine feminine Particularly relevant is the author s discussion of George W Bush as a cowboy and how his aspirations to cowboy ideals continue to shape American policy This engagingly written book will appeal to the general reader interested in film westerns and contemporary culture as well as to scholars in film studies gender studies children s literature and auto biography

Chai Noon Jonathan L. Friedmann, 2025 Only a few Westerns contain explicitly Jewish stories or themes and very rarely do Old West tales involve identifiably Jewish characters Yet Jewish contributors have shaped the Western once Hollywood s most popular genre ever since the silent era both onscreen and offscreen and some filmmakers have sought to infuse the genre with a distinctly Jewish sensibility In Chai Noon Jonathan L. Friedmann applies some of the central questions of Jewish film studies to the Western What makes a movie Jewish What counts as a Jewish image on screen What types of Jewish representation are appropriate How much of a film s Jewishness owes to the filmmakers and how much to the viewer s interpretation This volume joins other reconsiderations of outsider and minority representations in Westerns to offer a more nuanced view of the genre Friedmann engages with larger themes of Jewish identity in popular film including depictions of race ethnicity and foreignness He also identifies similar concerns within the invention and creation of the imaginary West writ large in American culture The juxtapositions prove to be both unexpected and intuitively understandable
