Tertullian The Treatise Against Hermogenes:

The Treatise Against Hermogenes Tertullian, 1956 Hermogenes was still living when Carthage's native son took up his pen to oppose him but that did not make Tertullian's polemic more considerate or his satire less passionate and biting Hermogenes taught a form of materialism Tertullian brilliantly convicts him of contradiction **Tertullian** Johannes Quasten, Quintus Septimius Florens Tertullianus, Tertullian, Joseph C. Plumpe, 1956 Tertullian Against Hermogenes Tertullian, 2012-08-21 We present a volume widely differing in its contents from those which have gone before it contains the works of the great founder of Latin Christianity the versatile and brilliant Tertullian Not all his works indeed for they could not be contained in one of our books This book however considerably overruns the promised number of pages and gives three complete parts of Tertullian's writings according to the classification of our Editor in chief The Fourth volume will begin with the fourth class of his works those which exhibit our author's ascetic ideas and the minor morals of the Primitive Christians that collection being closed by the four treatises which were written in support of a defined and schismatical Montanism The Editor in chief has been in active correspondence with representative men of diverse theological schools hoping to secure their co-operation in editorial work As yet however the result has not enabled us to announce more than one additional collaborator the rapidity with which the successive volumes must be furnished proving an almost insurmountable obstacle in the way of securing as co-workers divines actively engaged in professional duties and literary tasks The sympathy and encouragement which have been expressed by all with whom a correspondence has been opened have been most cheering To the Rev Dr Riddle of Hartford well known as one of the most learned of the American Haern Revisers of the New Testament we are indebted for his consent to edit one of the concluding volumes of the Series accompanying it with a Bibliographical Review of the entire Literature of the Patrologia of the Ante Nicene period supplying therein a compendious view of all the writers upon this period and of the latest critical editions of the Ante Nicene authors themselves The editor in chief will continue his annotations and the usual prefaces in Professor Riddle's volume but will be relieved in some degree of the laborious and minute attention to details which earlier volumes have necessarily exacted *Tertullian : Treatise against Hermogenes* J. H. Waszink (trans), 1956 Against Hermogenes Tertullian, 2018-08-19 The doctrine of Hermogenes has this taint of novelty He is in short a man living in the world at the present time by his very nature a heretic and turbulent withal who mistakes loquacity for eloquence and supposes impudence to be firmness and judges it to be the duty of a good conscience to speak ill of individuals Moreover he despises God's law in his painting maintaining repeated marriages alleges the law of God in defense of lust and yet despises it in respect of his art He falsifies by a twofold process with his cauter and his pen He is a thorough adulterer both doctrinally and carnally since he is rank indeed with the contagion of your marriage hacks and has also failed in cleaving to the rule of faith as much as the apostle's own Hermogenes However never mind the man when it is his doctrine which I question He does not appear to acknowledge any other Christ as Lord though he holds

Him in a different way but by this difference in his faith he really makes Him another being nay he takes from Him everything which is God since he will not have it that He made all things of nothing For turning away from Christians to the philosophers from the Church to the Academy and the Porch he learned there from the Stoics how to place Matter on the same level with the Lord just as if it too had existed ever both unborn and unmade having no beginning at all nor end out of which according to him the Lord afterwards created all things

Ancient Greek Cosmogony Andrew Gregory, 2008-01-03

Ancient Greek Cosmogony is the first detailed comprehensive account of ancient Greek theories of the origins of the world It covers the period from 800 BC to 600 AD beginning with myths concerning the creation of the world the cosmogonies of all the major Greek and Roman thinkers and the debate between Greek philosophical cosmogony and early Christian views It argues that Greeks formulated many of the perennial problems of philosophical cosmogony and produced philosophically and scientifically interesting answers The atomists argued that our world was one among many worlds and came about by chance Plato argued that it is unique and the product of design Empedocles and the Stoics in quite different ways argued that there was an unending cycle whereby the world is generated destroyed and generated again Aristotle on the other hand argued that there was no such thing as cosmogony and the world has always existed Reactions to and developments of these ideas are traced through Hellenistic philosophy and the debates in early Christianity on whether God created the world from nothing or from some pre existing chaos The book examines issues of the origins of life and the elements for the ancient Greeks and how the cosmos will come to an end It argues that there were several interesting debates between Greek philosophers on the fundamental principles of cosmogony and that these debates were influential on the development of Greek philosophy and science
