

The Testaments of Culhuacan

Sarah Cline*

Over 400 years ago a devastating epidemic swept through central Mexico, killing tens of thousands of indigenous people. During that epidemic of 1578–82, sixty-five men and women in the relatively small, if famous, Nahuatl settlement of Culhuacan dictated their last wills and testaments to Nahuatl notaries. Many other Nahuatl settlements of the time have left substantial records in the native language, but Culhuacan is unique in that a solid corpus of wills, now known as The Testaments of Culhuacan, has survived from a period of only a year or two. This group of wills in Nahuatl has been a rich source of information on local-level processes from an indigenous perspective. It continues to inform our understanding of the impact of the Spanish presence on a single indigenous community while also demonstrating the resilience of Nahuatl culture.

History of the project. The Culhuacan collection of wills appeared seemingly out of nowhere, a completely new corpus of Nahuatl documentation previously unknown to the scholarly community. Sometime in the early 1970s, Dr. Ignacio Pérez Alonso brought the Culhuacan documents to Dr. Miguel León-Portilla, the doyen of Nahuatl studies in Mexico, and gave him permission to photocopy the documents before donating them to the Universidad Iberoamericana library in Mexico City.

Don Miguel published a description of the corpus, with some samples, in *Escritos de Culhuacan Nahuatl* (León-Portilla 1976). Around that time, after I had passed my doctoral qualifying exams at UCLA, the expectation was that I would write my dissertation on the early sixteenth-century Cuernavaca crosses. Jim Lockhart, my director, having great respect for the extraordinary difficulty and recalcitrance of that material, and also seeing the magnitude of the project of publishing the entire Testaments of Culhuacan, went to León-Portilla with a proposal to which the latter readily agreed: that I would be furnished photocopies of the testaments, that I would gradually transcribe and provisionally translate them toward an edition by myself and León-Portilla, and that at the same time I would use them as the primary basis for a dissertation in ethnohistory.

I had no clear idea of what I was getting into, but the project sounded intriguing. My experience in Jim's paleography class made the task of transcribing the testaments appear a relatively straightforward process. I say that because sixteenth-century Nahuatl material hands are quite legible compared to the Spanish notaries' scripts. But colonial Nahuatl presents its own challenges with its lack of divisions between what we consider words, capricious or absent punctuation, and standardized as well as idiosyncratic abbreviations. I can't remember which document I started with, but I do remember the process: write out the transcription as best I could by hand, type it on my portable electric typewriter, keeping at any point my bundle of whole-cut (a revolutionary invention at the time!), I would send these provisional transcriptions to Jim and wait for the

Honor and Personhood in Early Modern Mexico Osvaldo F. Pardo, 2015-09-24 Osvaldo F Pardo examines the early dissemination of European views on law and justice among Mexico's native peoples Newly arrived from Spain in the sixteenth and seventeenth centuries mendicant friars brought not only their faith in the authority of the Catholic Church but also their reverence of the monarchy Drawing on a rich range of documents dating from this era including secular and ecclesiastical legislation legal and religious

treatises bilingual catechisms grammars on indigenous languages historical accounts and official reports and correspondence Pardo finds that honor as well as related notions such as reputation came to play a central role in shaping the lives and social relations of colonists and indigenous Mexicans alike Following the application and adaptation of European ideas of justice and royal and religious power as they took hold in the New World Pardo sheds light on the formation of colonial legalities and long lasting views both secular and sacred that still inform attitudes toward authority in contemporary Mexican society

illuminating essays by Peter Brown Yaacob Dweck Peter E Gordon Anthony Grafton Brad S Gregory Stefania Pastore Caterina Pizzigoni Victoria Smolkin Max Weiss and Muhammad Qasim Zaman *The Nahuas After the Conquest* James Lockhart, 1994-09-01 A monumental achievement of scholarship this volume on the Nahua Indians of Central Mexico often called Aztecs constitutes our best understanding of any New World indigenous society in the period following European contact Simply put the purpose of this book is to throw light on the history of Nahua society and culture through the use of records in Nahuatl concentrating on the time when the bulk of the extant documents were written between about 1540 50 and the late eighteenth century At the same time the earliest records are full of implications for the very first years after contact and ultimately for the preconquest epoch as well both of which are touched on here in ways that are more than introductory or ancillary Nahuas and Spaniards James Lockhart, 1991 The Nahua Indians of central Mexico often misleadingly called Aztecs after the quite ephemeral confederation that existed among them in late pre Hispanic times were the most populous of Mesoamerica s cultural linguistic groups at the time of the Spanish conquest They remained at the center of developments for centuries thereafter since the bulk of the Hispanic population settled among them and they bore the brunt of cultural contact This collection of thirteen essays five of them previously unpublished by the leading authority on the postconquest Nahuas and Nahua Spanish interaction brings together pieces that reflect various facets of the author s research interests Underlying most of the pieces is the author s pioneering large scale use of Nahua manuscripts to illuminate the society and culture of native Mexicans in the Spanish colonial period The picture of the Nahuas that emerges shows them far less at odds with the colonial world from it what is useful to them and far more capable to maintaining their own pre conquest identity than has previously been suggested
