Testing The New Deal The General Textile Strike Of 1934 In The American South:

Testing the New Deal Janet Christine Irons, 2000 Customary rights Homegrown unions Union management cooperation New rules Dirty deal A battle of righteousness We must get together in our organization No turning back Anatomy of a strike Which side are you on Aftermath **The General Textile Strike of 1934** John A. Salmond, 2002 Yet barely eighteen months later with 300 000 dues paying members with newly established or revived branches covering southern cotton textile workers as well as northern woolen and worsted workers silk and jacquard weavers dyers and finishers even rayon workers and with locals in 208 cities towns and mill villages the UMW was about to embark on what one historian has termed the greatest single industrial conflict in the history of American labor The General Textile Strike of 1934 is the story of that conflict **The American South** William J. Cooper, Jr., Thomas E. Terrill, 2009-01-16 In The American South William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the south from the history of the United States Each volume includes a substantial biographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South Coverage now includes the devastation of Hurricane Katrina in 2005 up to date analysis of the persistent racial divisions in the region and the South's unanticipated role in the 2008 presidential primaries Testing the New Deal Janet Christine Irons, 2000 Customary rights Homegrown unions Union management cooperation New rules Dirty deal A battle of righteousness We must get together in our organization No turning back Anatomy of a strike Which side are you on Aftermath **New Deal, New Landscape** Tara Mitchell Mielnik, 2012-11-19 Tara Mitchell Mielnik fills a significant gap in the history of the New Deal South by examining the lives of the men of South Carolina's Civilian Conservation Corps CCC who from 1933 to 1942 built sixteen state parks all of which still exist today Enhanced with revealing interviews with former state CCC members Mielnik's illustrated account provides a unique exploration into the Great Depression in the Palmetto State and the role that South Carolina's state parks continue to play as architectural legacies of a monumental New Deal program In 1933 thousands of unemployed young men and World War I veterans were given the opportunity to work when Emergency Conservation Work ECW one of Franklin Delano Roosevelt's New Deal programs came to South Carolina Renamed the Civilian Conservation Corps in 1937 the program was responsible for planting millions of trees in reforestation projects augmenting firefighting activities stringing much needed telephone lines for fire prevention throughout the state and terracing farmland and other soil conservation projects The most visible legacies of the CCC in South Carolina are many of the state's national forests recreational areas and parks Prior to the work of the CCC South Carolina had no state parks but from 1933 to 1942 the CCC built sixteen Mielnik's briskly paced and informative study gives voice to the young men who labored in the South Carolina CCC and honors the legacy of the parks they built and the conservation and public recreation values these sites fostered for modern South Carolina *The Way We Build* Mark Erlich, 2023-07-18 The construction trades once provided unionized craftsmen a route to the middle class and a

sense of pride and dignity often denied other blue collar workers Today union members still earn wages and benefits that compare favorably to those of college graduates But as union strength has declined over the last fifty years a growing non union sector offers lower compensation and more hazardous conditions undermining the earlier tradition of upward mobility Revitalization of the industry depends on unions shedding past racial and gender discriminatory practices embracing organizing diversity and the new immigrant workforce and preparing for technological changes Mark Erlich blends long view history with his personal experience inside the building trades to explain one of our economy's least understood sectors Erlich's multifaceted account includes the dynamics of the industry the backdrop of union policies and powerful stories of everyday life inside the trades He offers a much needed overview of construction's past and present while exploring roads to the future

Public Workers in Service of America Frederick W. Gooding Jr., Eric S. Yellin, 2023-08-15 From white collar executives to mail carriers public workers meet the needs of the entire nation Frederick W Gooding Jr and Eric S Yellin edit a collection of new research on this understudied workforce Part One begins in the late nineteenth and early twentieth century to explore how questions of race class and gender shaped public workers their workplaces and their place in American democracy In Part Two essayists examine race and gender discrimination while revealing the subtle contemporary forms of marginalization that keep Black men and Black and white women underpaid and overlooked for promotion The historic labor actions detailed in Part Three illuminate how city employees organized not only for better pay and working conditions but to seek recognition from city officials the public and the national labor movement Part Four focuses on nurses and teachers to address the thorny question of whether certain groups deserve premium pay for their irreplaceable work and sacrifices or if serving the greater good is a reward unto itself Contributors Eileen Boris Cathleen D Cahill Frederick W Gooding Jr William P Jones Francis Ryan Jon Shelton Joseph E Slater Katherine Turk Eric S Yellin and Amy Zaroni

The Ruined Anthracite Paul A. Shackel, 2023-08-01 Once a busy if impoverished center for the anthracite coal industry northeastern Pennsylvania exists today as a region suffering inexorable decline racked by economic hardship and rampant opioid abuse abandoned by young people and steeped in xenophobic fear Paul A Shackel merges analysis with oral history to document the devastating effects of a lifetime of structural violence on the people who have stayed behind Heroic stories of workers facing the dangers of underground mining stand beside accounts of people living their lives in a toxic environment and battling deprivation and starvation by foraging bartering and relying on the good will of neighbors As Shackel reveals the effects of these long term traumas he sheds light on people's poor health and lack of well being The result is a valuable on the ground perspective that expands our understanding of the social fracturing economic decay and anger afflicting many communities across the United States Insightful and dramatic The Ruined Anthracite combines archaeology documentary research and oral history to render the ongoing human cost of environmental devastation and unchecked capitalism

[A History of America in Ten Strikes](#) Erik Loomis, 2018-10-02 Recommended by The Nation the New Republic Current Affairs Bustle In These Times An entertaining

tough minded and strenuously argued The Nation account of ten moments when workers fought to change the balance of power in America A brilliantly recounted American history through the prism of major labor struggles with critically important lessons for those who seek a better future for working people and the world Noam Chomsky Powerful and accessible A History of America in Ten Strikes challenges all of our contemporary assumptions around labor unions and American workers In this brilliant book labor historian Erik Loomis recounts ten critical workers strikes in American labor history that everyone needs to know about and then provides an annotated list of the 150 most important moments in American labor history in the appendix From the Lowell Mill Girls strike in the 1830s to Justice for Janitors in 1990 these labor uprisings do not just reflect the times in which they occurred but speak directly to the present moment For example we often think that Lincoln ended slavery by proclaiming the slaves emancipated but Loomis shows that they freed themselves during the Civil War by simply withdrawing their labor He shows how the hopes and aspirations of a generation were made into demands at a GM plant in Lordstown in 1972 And he takes us to the forests of the Pacific Northwest in the early nineteenth century where the radical organizers known as the Wobblies made their biggest inroads against the power of bosses But there were also moments when the movement was crushed by corporations and the government Loomis helps us understand the present perilous condition of American workers and draws lessons from both the victories and defeats of the past In crystalline narratives labor historian Erik Loomis lifts the curtain on workers struggles giving us a fresh perspective on American history from the boots up Strikes include Lowell Mill Girls Strike Massachusetts 1830 40 Slaves on Strike The Confederacy 1861 65 The Eight Hour Day Strikes Chicago 1886 The Anthracite Strike Pennsylvania 1902 The Bread and Roses Strike Massachusetts 1912 The Flint Sit Down Strike Michigan 1937 The Oakland General Strike California 1946 Lordstown Ohio 1972 Air Traffic Controllers 1981 Justice for Janitors Los Angeles 1990
