Maxon,Thomas P. Ofcansky,2014-09-09 Kenya has a long and complex history that began thousands of years ago Indeed some archaeologists contend that the country was the cradle of mankind or at the very least one of the places that was home to the earliest hominids In later

centuries Kenya's strategic location astride the Indian Ocean and the East African littoral attracted numerous foreign peoples some of the most significant of which have been the Americans Arabs British Chinese French Germans and Portuguese Additionally Africans from throughout the subcontinent have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Although it has maintained this reputation during the post independence period Kenya like most African countries has been plagued by an increasing array of complex economic political and social problems This third edition of Historical Dictionary of Kenya provides a starting point for those interested in any of the phases of Kenya's historical evolution This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Kenya

*Modes of British Imperial Control of Africa* Onyek C. Adyanga, 2011-05-25 This book examines how Great Britain as a colonial power in Africa organized and exercised control at the international and domestic level to advance British interests in Uganda and beyond While this book is by no means an exhaustive study of the various modes of control that took hold in Uganda since its inception as a territorial state up to the period of juridical independence it is hoped that its historiographical contributions to the post colonial dispensation of Uganda will be threefold First it systematically sheds light on the combined influence of racist ideology class and politics in perpetuating informal imperial control in Uganda Second it demonstrates that consolidating informal imperial control has required externalizing the legitimacy of the Ugandan state This suggests that African leaders not supported by external powers may be externally delegitimized and their position made untenable Third it demonstrates that the informal control imposed upon Africans by external powers by removing incentives for internal legitimacy encouraged violations of human rights as African leaders did not need to obtain the consent of their own people in order to remain in power Furthermore it advances the argument that democracy the rule of law and the protection of human rights can be achieved in Africa if leaders enjoy internal legitimacy derived from the people The various modes of control imposed by former masters over colonial and post colonial states were not meant to protect African but imperial interests
