A Hero for the Atomic Age Axel Andersson, 2010 Nomination for Best Foreign Film at the 2013 Academy Awards In English and many other languages the name Kon Tiki has become a byword for adventure and the exotic The journey of the Kon Tiki from Peru to Polynesia in 1947 became one of the founding myths of the postwar world In the voyage of six Scandinavians and a parrot on a balsa raft across the Pacific Ocean the classic journey of discovery was re invented for generations to come Kon Tiki spoke of heroism masculinity free spirited rebellion against scientific dogmatism and the promise of an attainable exotic world while it updated these mythological staples to fit the times After years of relentless media exploitation of the 101 day raft journey Heyerdahl emerged as the protagonist in a legend that helped to create a new postwar West *A Hero for the Atomic Age* tells the story of how Heyerdahl organized an expedition to sail a balsa raft from Callao in Peru to the Tuamotu Islands in French Polynesia and explains how he turned this physical crossing into an epic narrative that became imbued with a universal appeal The book also addresses for the first time the problematic nature of Heyerdahl s theory that a white culture bearing race had initiated all the world s great civilizations The Pedagogical Seminary ,1910 Vols 5 15 include Bibliography of child study by Louis N Wilson **Intensive-Learning English , A Sword of Bronze and Ashes** Anna Smith Spark, 2023-09-12 Readers of Shauna Lawless and Thilde Kold Holdt will love this Celtic inflected adventure by critically acclaimed grimdark epic fantasy novelist Anna Smith Spark *A Sword of Bronze and Ashes* combines the fierce beauty of Celtic myth with grimdark battle violence It s a lyrical folk horror high fantasy Kanda has a good life until shadows from her past return threatening everything she loves And Kanda like any parent has things in her past she does not want her children to know Red war is coming pursued by an ancient evil Kanda must call upon all her strength to protect her family But how can she keep her children safe if they want to stand as warriors beside her when the light fades and darkness rises FLAME TREE PRESS is the imprint of long standing independent Flame Tree Publishing dedicated to full length original fiction in the horror and suspense science fiction the award winners and exciting original voices Learn more about Flame Tree Press at www.flametreepress.com and connect on social media FlameTreePress

of the masterpieces of English poetry and certainly part of the literary pedigree that culminated in Tolkien However the original text is very difficult to follow for modern readers because of the archaic language and spelling To the rescue comes Mary Macleod Her late Victorian retelling in straightforward modern English allows one to plow through Spenser s intricate and allegorical plot If you are planning to read the Faerie Queene or want to understand the narrative but don t have the time or patience to tangle with an epic poem in early modern English you ve come to the right place *Machinists' Monthly Journal* ,1909

Airline Executives and Federal Regulation Walter David Lewis,2000 This book is a collection of eight case studies of relationships between airline executives and federal regulatory agencies from the passage of the Air Commerce Act in 1926 to the Airline Deregulation Act of 1978 By focusing on the lives and personalities of individual entrepreneurs W David Lewis and his contributors hope to explore the interaction between technology government regulation and entrepreneurship Each essay in the book focuses on a particular airline executive such as Eddie Rickenbacker Robert Six and Donald Nyrop Lewis has been careful to give a variety of perspective Airlines of various types are represented large and small scheduled and unscheduled Some of the executives profiled were known for having adversative relationships with federal regulators whereas others wholeheartedly accepted regulation and thrived under it There have been public calls for a return to airline regulation and Lewis thinks it is not inconceivable that regulation may ultimately return if problems continue and conditions deteriorate further But he say s it is well to remember that deregulation occurred because there were flaws in the regulatory system it replaced This collection of essays scholarly and well documented but written in a lively style suitable for specialists and nonspecialists alike provides a

long range perspective on the issue of airline deregulation
