Voice, Text, Hypertext Raimonda Modiano, Leroy F. Searle, Peter L. Shillingsburg, 2016-06-01 Voice Text Hypertext illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of

heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture

Medieval and Early Modern Film and Media R. Burt, 2016-04-30 Medieval and Early Modern Film and Media contextualizes historical films in an innovative way not only relating them to the history of cinema but also to premodern and early modern media This philological approach to the pre history of cinema engages both old media such as scrolls illuminated manuscripts the Bayeux Tapestry and new digital media such as DVDs HD DVDs and computers Burt examines the uncanny repetitions that now fragment films into successively released alternate cuts and extras footnote tracks audiocommentaries and documentaries that re structure and reframe historical films thereby presenting new challenges to historicist criticism and film theory With a double focus on recursive narrative frames and the cinematic paratexts of medieval and early modern film this book calls our attention to strange sometimes opaque phenomena in film and literary theory that have previously gone unrecognized

The Pleasures of Contamination David C. Greetham, 2010 Through the concept of contamination David Greetham highlights various ways that one text may invade another carrying with it a residue of potential meaning While the focus of this study is on written works the scope ranges widely over music politics art science philosophy religion and social studies Greetham argues that this sort of contamination is not only ubiquitous in contemporary culture but may also be a necessary and beneficial circumstance Tracing contamination from the Middle Ages onward he takes up issues such as the placement of quote marks in Keats's Ode to a Grecian Urn the controversy over the use of evidence for yellowcake uranium in Niger and the reconstitution of reality on YouTube to illustrate that the basic questions of evidence fact and voice have always been slippery concepts

Einstein and in the hands of Thomas Jefferson leave its trace on the Declaration of Independence From the gardens of the ancient philosophers to the dark chambers of monastic scriptoria during the Middle Ages to the cynical competitive court of a corrupt and dangerous pope Greenblatt brings Poggio's search and discovery to life in a way that deepens our understanding of the world we live in now An intellectually invigorating nonfiction version of a Dan Brown like mystery in the archives thriller Boston Globe
