Thames Valley Airfields:

Thames Valley Airfields in the Second World War Robin J. Brooks, 2000 A full account of the part played by the Thames Valley airfields during the Second World War including Greenham Common White Waltham Thame Wing Hendon and Northolt The history of each airfield is described with the squadrons and aircraft based at them and the main operations flown The effects of the war on the daily lives of civilians and the constant dangers from raids and night bombing are also detailed

UK Airfields Past and Present Grant Peerless, 2020-10-04 A great many books have been written over the years about individual airfields or those in particular counties areas but this one covers a good proportion of them in one publication from Abbots Bromley to Zeals It provides brief details of over 1700 airfields from before the First World War to the present day and describes the main activities carried out based units operators and current status It includes military bases civil airports airfields gliding sites microlight sites and larger farm strips together with the probable number of based aircraft An appendix lists over 500 books which have been published about individual airfields and this together with the details provided in this book affords a convenient source of reference for further research It does not pretend to include every flying site that ever existed as this would require a much larger volume but covers what are considered to be the most significant airfields of the past 110 years It includes over one hundred photographs in colour and black white most of which have not been published previously

Airfields Of 8th Roger Freeman, 1978-02-28 A unique nostalgic look at the airfields used by the Eighth in the United Kingdom during the Second World War Conceived in war the airfields experienced their moments of glory and when the war ended were left empty and derelict to die The few which remain virtually intact have only survived because some private or public concern has formed a practical use for them although not always as airfields Some of the more remote airfields still dot the countryside the same as when the last plane left their runways and the last truck departed through the main gate They are bleak windswept and moldering but they retain the atmosphere of the fine high endeavors of the people who inhabited them and the aura of ineffable sadness that hangs over memorials to fighting men For such they are

Secrets of Q Central Paul Brown, Edward Herbert, 2014-11-24 A quiet market town with no military presence was chosen as the secret communications centre for Britain as the country prepared for war with Germany in 1937 When hostilities began Q Central attracted a dozen other clandestine operations set up to defend the country or designed to confuse and undermine enemy morale The headquarters of radar RAF Group 60 also came to Leighton Buzzard to be hidden from German attack and to be close to the telephone and radio communications needed to run its vast chain of radar stations These directed the defending fighters that saved the country in the Battle of Britain and then took the bombing war to Germany Close by for the same reasons of secrecy and safety were the satellite stations of Bletchley Park the now famous code breaking centre the Met Office at Dunstable which gave the all clear for the D Day landings Black Ops units that set up false radio stations and wrote propaganda to confuse the enemy and airfields used for dropping agents behind enemy
